## **Methodology In Indological Research:**

**Methodology in Indological Research**, 2018 *The Nay-Science* Vishwa Adluri, Joydeep Bagchee, 2014 Vishwa Adluri and Joydeep Bagchee undertake a careful and rigorous hermeneutical approach to nearly two centuries of German philological scholarship on the Mahabharata and the Bhagavad Gita Analyzing the intellectual contexts of this scholarship beginning with theological debates that centered on Martin Luther's soteriological doctrine and proceeding to scientific positivism via analyses of disenchantment Entzauberung German Romanticism pantheism Pantheismusstreit and historicism they show how each of these movements progressively shaped German philology's encounter with the Indian epic They demonstrate that from the mid nineteenth century on this scholarship contributed to the construction of a supposed Indo Germanic past which Germans shared racially with the Mahabharata's warriors Building on nationalist yearnings and ongoing Counter Reformation anxieties scholars developed the premise of Aryan continuity and supported it by a Brahmanical hypothesis according to which supposedly later strata of the text represented the corrupting work of scheming Brahmin priests Adluri and Bagchee focus on the work of four Mahabharata scholars and eight scholars of the Bhagavad Gita all of whom were invested in the idea that the text critical task of philology as a scientific method was to identify a text's strata and interpolations so that by displaying what had accumulated over time one could recover what remained of an original or authentic core The authors show that the construction of pseudo histories for the stages through which the Mahabharata had supposedly passed provided German scholars with models for two things 1 a convenient pseudo history of Hinduism and Indian religions more generally and 2 a platform from which to say whatever they wanted to about the origins development and corruption of the Mahabharata text The book thus challenges contemporary scholars to recognize that the Brahmanic hypothesis the thesis that Brahmanic religion corrupted an original pure and heroic Aryan ethical and epical worldview an unacknowledged tenet of much Western scholarship to this day was not and probably no longer can be an innocuous thesis The corrupting impact of Brahmanical priestcraft the authors show served German Indology as a cover under which to disparage Catholics Jews and other Semites

Pondicherry University      **Words and Deeds** Jörg Gengnagel, Ute Hüsken, Srilata Raman, 2005 Words and Deeds is a collection of articles on rituals in South Asia with a special focus on their texts and context. The volume presupposes that a comprehensive definition of ritual does not exist. Instead, the papers in it avoid essentialist definitions, allowing for a possible polythetic definition of the concept to emerge. Papers in this volume include those on Initiation, Pre-Natal Rites, Religious Processions, Royal Consecration, Rituals which mark the commencement of ritual, Rituals of devotion and Vedic sacrifice, as well as contributions which address the broader theoretical issues of engaging in the study of ritual texts and ritual practice both from the etic and the emic perspective. These studies show that any study of the relationship between the text and the context of rituals must also allow for the possibility that different categories of performers can and do subjectively constitute the relationship between their ritual knowledge and ritual practice between text and context in differing and nuanced ways.
