Modern Utopia and Dystopia in the Novel Never Let Me Go by Kazuo Ishiguro Enikő Jakus, 2011-05 Seminar paper from the year 2010 in the subject English Language and Literature Studies Literature grade sehr gut Eotvos Lorand Tudományegyetem language English abstract In this paper as the title says I

would like to write about utopian and dystopian elements in the modern contemporary world using a novel from this decade titled *Never Let Me Go* 1995 by Kazuo Ishiguro. The novel highlights some deep problems of humanity around the beginning of the 21st century using a combination of utopia and dystopia. On the following pages I present these elements and I also try to interpret them: what problems of modern society they reveal and what solutions they might offer.

"Blade Runner" and the Cyberpunk Narrative. Is Cyberpunk a Dystopian Narrative or a Genre of its own? Mike Gallo, 2018-04-11 Seminar paper from the year 2017 in the subject English Language and Literature Studies Literature grade 1.7 University of Wuppertal Anglistik course Narrating Los Angeles language English abstract The reference I've seen things you people wouldn't believe marks one of the most iconic monologues in movie history. It perfectly describes the confusing life within a dystopian future from the perspective of a being whose existence is a comment on life itself. Replicants, artificial life, flying cars, dirty streets, confusing architecture, and big corporations fill the narration of *Blade Runner*, often claimed as the showpiece of the art form of cyberpunk. What is cyberpunk? What is cyber? What is punk? This seminar paper will examine the origins of the cyberpunk narrative by amplifying its roots in the dystopian scenario. Furthermore, the dystopian roots within the utopian narrative will be specified. Using the example of Ridley Scott's 1982 movie *Blade Runner*, the significance of the city of Los Angeles within the cyberpunk narrative will be examined, and the importance of the classic hard-boiled detective crime fiction will be put into contrast to Scott's visionary image of 2019 Los Angeles. Is cyberpunk just another version of the dystopian narrative, or is it a genre on its own? Is the narration within the cyberpunk universe still relevant, or is the cyberpunk era already over? By examining possible roots of the cyberpunk narration within the hard-boiled crime fiction of the 1920s and 1930s, a connection to Scott's *Blade Runner* is tried to be reasoned.

When unexpected circumstances arise, will their faith and determination be enough to carry them to freedom?

Other Worlds John J. Teunissen, 1980 *Science-fiction Studies*, 2008 **The Encyclopedia of Science Fiction** Peter Nicholls, 1979 **How and to what Effect Do Science Fiction Texts Imagine Disaster?**, 2020-04-29 Seminar paper from the year 2018 in the subject American Studies Literature grade 1.0 Birmingham City University language English abstract This essay aims at calling attention to the ravages of power relationships which drive disaster and subsequently the ascendance of dystopian post-apocalyptic worlds in the texts chosen. All responsible writers have become involuntary criers of doom because doom is in the wind, but science fiction more so, since science fiction has always been a

protest medium the renowned author Philip K Dick commented on the purpose of writing science fiction Science fiction offers writers a platform to emphasise and magnify social inequalities target issues identify victims and encourage change The texts discussed in this essay include Ray Bradbury s short story There Will Come Soft Rains which tells of a technically elaborate house that seems to be the lone survivor after an atomic blast Philip K Dick s novel The Man in the High Castle that imagines a world in which the Axis powers triumph over the Allies and totalitarianism is established as the prevailing governmental system and third Raccoona Sheldon s short story The Screwfly Solution which describes the devastating effects of a pandemic that causes men to kill off womankind First the terminology relevant to this essay will be established in order to provide a better understanding of the terms used As the function of this essay is to analyse how and to what effect science fiction texts imagine disaster the main part will be divided into two sections In the first section the portrayal of disasters in the three texts will be explored by looking into the power relations which inform the conflicts In the second part the effect of the emergence of dystopia will be discussed by reflecting about the texts intentions The main ideas will be summarised in a final conclusion
