The Marketing

Game! Charlotte H. Mason,William D. Perreault,1992 New windows based version coming soon Flexibility is the key word for

this outstanding simulation Your students whether undergraduate or MBAs will find the challenges and decisions which must be made rewarding The Marketing Game is several simulations in one Faculty can easily select the number of decision areas

thereby determining the skill level which is required to compete effectively In designing this simulation the primary goal was that it be rich in student interest and realism and yet create a strategic planning environment where random events would

not mask the relationship between good decisions and the results achieved The secondary but just as important goal is that participants be challenged yet still have fun The third goal being in the classroom themselves the authors felt it was

important for instructors to be able to diagnose how participants are progressing in a quick and easy manner The primary

focus of The Marketing Game is on effective marketing strategy planning in a competitive environment This gives the

students the opportunity to experience the role of a marketing manager first hand by analyzing markets and targeting market

needs

simulation Rather it is based on several simulations with one integrated framework The instructor can decide the level of

complexity by selecting the number of decision areas a student is forced to consider thus making the game equally applicable

for a first year Principles student and a Graduate student The instructor can also set up or adjust the marketing

environments in the simulation to meet specific learning or teaching objectives and can decide if students will compete in

groups against each other or simply against themselves The Marketing Game is based on realistic marketing and
