## Marsh Lions:

The Marsh Lions Brian Jackman, Jonathan Scott, 2012 For five years Brian Jackman and Jonathan Scott followed the Marsh pride recording the daily drama of life and death in Kenya's finest big game country. In time they came to regard many of the lions as old and familiar companions: the irascible Notch and her half-sister Shadow, the misfit Mkubwa and the majestic Scar. These lions are real individuals whose lives, intimately observed and illustrated, offer a unique insight into the world of the African plain. Back cover: The Marsh Lions Brian Jackman, 2012 A bestseller when first published in 1982, The Marsh Lions portrays a vivid picture of life and death on the African savannah through the story of a pride of lions in Kenya's world-famous Masai Mara game reserve. The story is essentially a true one. All the central characters are real and most of the incidents described actually happened. For five years Brian Jackman and Jonathan Scott followed the Marsh pride and their progeny, painstakingly recording the daily drama of life and death on the African plains. In time they came to regard them as old and familiar friends and real individuals: the big resident males Scar, Brando and Mkubwa and three lionesses known as the Marsh sisters. Their lives together with the leopards and cheetahs that shared their wild paradise offer a unique insight into the unforgiving world of these magnificent carnivores. The Marsh Lions were the most successful group to be filmed for Big Cat Diary, the BBC's hugely successful TV series. With Jonathan Scott as co-presenter, The Big Cat Diary camera teams allowed millions of viewers to observe the ongoing saga of the Marsh pride at a time when lions are fast disappearing all over Africa. The Marsh Lions is a powerful reminder of what the world stands to lose if the big cats were to vanish forever and highlights the need to cherish the Mara as one of the most beautiful of the earth's wild places. This edition of the book includes a new chapter bringing the story up to date with the pride as it is now, alongside photos of the new lions. The book is illustrated with photographs and drawings by Jonathan and Angela Scott.

The Last Lions Colin Bell, Don Pinnock, 2025-10-01. Lions are the stuff of legends. Revered and feared in equal measure, both majestic and terrifying, they once reigned supreme over an extensive domain. But this once dominant beast's original range has contracted by some 85% and the world population is thought to have dropped to just over 20 000 individuals. The IUCN Red Data List now classifies lions as Vulnerable and the West African subpopulation as Critically Endangered. Not only are lion numbers crashing, but the remaining populations cling to their existence on ever smaller, more fragmented pockets of land. Feared and despised by farmers trying to eke out a living on marginal land, lions are increasingly being exterminated or repurposed for commercial gain. Trophy hunters pay extortionate sums to bag specimens in their prime and lion bones are being sold for the roaring Eastern trade in tiger wine. This landmark book aims to halt the downward spiral. It takes you on a journey across the continent and into the lives of rangers, scientists and communities and the majestic creatures they work to conserve. Along with the bad news about today's lions, it offers a message of hope showing how innovative conservationists are rethinking our approach to human-lion coexistence. This book, with its searing, inspiring images and vivid accounts from the experts and foot

soldiers of conservation brings the plight of lions to the attention of the world and is an urgent plea for the actions that need to be taken before it's too late Sales points A must have for anyone interested in wildlife conservation and the environment Text by a host of top scientists conservationists and others in the field Outstanding photography by award winning

**When the Last Lion Roars** Sara Evans,2018-06-14 The illegal killing of Cecil a famous and magnificent black maned Zimbabwean lion by an American big game hunter in 2015 sparked international outrage More significantly it drew the world's attention to the devastating plight of Africa's lions A century ago there were more than 200 000 wild lions living in Africa Today with that population reduced by more than 90 per cent many experts believe that without effective conservation plans Africa's remaining wild lions could be completely wiped out by the mid half of this century When the Last Lion Roars explores the historic rise and fall of the lion as a global species and examines the reasons behind its catastrophic decline Interwoven with vivid personal encounters of Africa's last lions Sara Evans questions what is being done to reverse or at least stem this population collapse and she considers the importance of human responsibility in this decline and more crucially in their conservation From the Lion Guardians in Kenya to the Living Walls of Tanzania and the Hwange Lion Research Project in Zimbabwe Sara meets both lions and their champions people who are fighting to bring this iconic species back from the brink of extinction
