Martian Sphinx:

The Martian Sphinx John Brunner, 2011-09-29 By the twenty first century the world was drowning in its own population A solution had to be found quickly and it was in gravi power Wonderful unending source of power only the scientists knew that its use was reducing the Earth s distance from the sun at a dangerous rate But if another planet s gravi power could be harnessed An expedition was launched to Mars known to be uninhabited except that a woman was wandering around its surface who claimed she had come from another galaxy to warn Earth of a terrible menace and there was a huge poly hedron of metal emanating a force very much like that of gravipower Someone else had discovered it A thousand years ago or now Friend or enemy First published 1965 [The Ancient Alien Theory: Part Seven](#) C.R.
