The Existential Philosophy of Etty Hillesum Meins G. S. Coetsier, 2014-01-09 In *The Existential Philosophy of Etty Hillesum* Meins G S Coetsier breaks new ground by demonstrating the Jewish existential nature of Etty Hillesum's spiritual and cultural life in light of the writings of Martin Buber Emmanuel Levinas and Dietrich Bonhoeffer Hillesum's diaries and letters written between 1941 and 1943 illustrate her struggle to come to terms with her personal life in the context of the Second World War and the Shoah By finding God under the rubble of the horrors she rediscovers the divine presence between humankind while taking up responsibility for the Other as a way to embrace justice and compassion In a fascinating accessible and thorough study Coetsier dispels much of the confusion that assails readers when they are exposed to the bewildering range of Christian and Jewish influences and other cultural interpretations of her writings The result is a convincing and profound picture of Etty Hillesum's path to spiritual freedom

Dehumanization in

the Global Migration Crisis Adrienne de Ruiter, 2024-03-06 What does it mean to fail to recognise people's humanity This book analyses dehumanization in the global migration crisis to answer this complex question Drawing from interviews with refugees and asylum seekers Dehumanization in the Global Migration Crisis presents a philosophical yet empirically grounded account of what dehumanization entails While dehumanization is commonly used as a key concept in scholarship popular media and public debate to call attention to remediable harms faced by the forcibly displaced its precise meaning is far from clear A wide variety of practices is called dehumanizing ranging from international policies that confine people under undignified circumstances within refugee camps to using forced migrants as bargaining chips in political negotiations Yet how do these practices exactly deny the humanity of the persons involved What sense of humanity is at stake in the adversities that refugees asylum seekers and unwanted migrants face Through a detailed examination of victims descriptions of their lived experiences with dehumanization animalization objectification and brutalization De Ruiter finds that dehumanisation is best understood as a distinct form of moral exclusion that is characterised by blindness to the significance of their human subjectivity The book provides a critical discourse analysis of the usage of the term dehumanization in reporting on the global migration crisis and sets out what should be done to counteract the dehumanization of refugees asylum seekers and unwanted migrants
