Marxism A Re Examination:

Marxism George Holland Sabine,1958 *Marxism* Irving M. Zeitlin,1967 **Marxism: a Re-examination** Irving M. Zeitlin,1967 **Problems of Communism** ,1967 **The New Value Controversy and the Foundations of Economics** Alan Freeman,Andrew Kliman,Julian Wells,2004-02-25 The papers that comprise this collection introduce key advances in modern value theory Equilibrium and non equilibrium approaches are discussed alongside the theory behind abstract labour and money **Lenin, Hegel, and Western Marxism** Kevin Anderson,1995 This first full length treatment of Lenin s studies of Hegel presents Lenin as a major figure in Hegelian Marxism providing a more nuanced portrait of his work than that of either official Marxist Leninism or most Western accounts With impressive argumentation and wide ranging scholarship Anderson presents us with a Lenin that no one seriously interested in current debates over the relevance of Marxist theory to socialist practice can afford to miss Bertell Ollman author of *Dialectical Investigations* An important contribution to grasping the conceptual roots of Marxist theory and practice Tom Rockmore author of *Hegel s Circular Epistemology* Today Lenin looks like he did little more than prepare the way for Stalin You will find the opposite view in this novel study I recommend the book to anyone seriously interested in Russia and revolution George Uri Fischer author of *The Soviet System and Modern Society* **Marxism, Revolution and Utopia** Herbert Marcuse,2014-03-26 This collection assembles some of Herbert Marcuse s most important work and presents for the first time his responses to and development of classic Marxist approaches to revolution and utopia as well as his own theoretical and political perspectives This sixth and final volume of Marcuse s collected papers shows Marcuse s rejection of the prevailing twentieth century Marxist theory and socialist practice which he saw as inadequate for a thorough critique of Western and Soviet bureaucracy and the development of his revolutionary thought towards a critique of the consumer society Marcuse s later philosophical perspectives on technology ecology and human emancipation sat at odds with many of the classic tenets of Marx s materialist dialectic which placed the working class as the central agent of change in capitalist societies As the material from this volume shows Marcuse was not only a theorist of Marxist thought and practice in the twentieth century but also proves to be an essential thinker for understanding the neoliberal phase of capitalism and resistance in the twenty first century A comprehensive introduction by Douglas Kellner and Clayton Pierce places Marcuse s philosophy in the context of his engagement with the main currents of twentieth century philosophy while also providing important analyses of his anticipatory theorization of capitalist development through a neoliberal restructuring of society The volume concludes with an afterword by Peter Marcuse **Marxism and the Class Struggle** Cliff Slaughter,1975 **Perspectives on Political Philosophy: Marx through Marcuse** James V. Downton,David K. Hart,1971 *History, Economic History and the Future of Marxism* Tom Kemp,1996 **Political Affairs** ,1930 **Challenge to Karl Marx** John Kenneth Turner,1941 *Marxism and the Democratic Tradition* A. Landy,1946 Reference notes pages 205 214 Suggested readings p 221 222

Christianity and Marxism Worldwide Mark R. Elliott, 1988 *Marxism, Art and the Practice of Social and Political Inquiry* Ian Trevor King, 1984 **Marxism** Michael Curtis, 1970 **Marxism and Philosophy in the Twentieth Century** Richard Hudelson, 1990-09-25 Useful to both students and scholars of the social sciences and humanities this book provides a guide to fundamental issues in twentieth century Marxist thought Outlining the two distinct and incompatible critiques of vulgar Marxism Marxist Leninism and humanistic Marxism that gained prominence in the aftermath of World War I this book presents both an historical overview of these two dominant traditions and a critical analysis of their philosophical roots Challenging the viewpoints of Marxist thought which have prevailed in this century Richard Hudelson argues that the supposed philosophical breakthroughs claimed by both Marxist Leninism and humanistic Marxism rest upon flawed reasoning With a careful critique of these prevailing views he presents his own view which while receptive to the social scientific work of current analytical Marxism de emphasizes the importance of philosophy in the study of Marxism Hudelson contends that developments in contemporary philosophy of science will allow for an appreciation of the scientific Marxism of the Second International without recourse to the philosophical theories of humanistic Marxism and Marxist Leninism Also using some of the more recent developments in the philosophy of science this book makes possible a fruitful exchange between analytical Marxism and Marxist Leninism Divided into three parts the book first presents a historical introduction which identifies positions and arguments of historical significance This is followed by an analytical look at various arguments to determine where the strongest position lies Finally the author offers some concluding remarks on the significance of his analysis for current directions within Marxist philosophy Marxism and American Literary Criticism Pete E. Clecak, 1964
Marx's Capital Geoffrey Pilling, 1980 **Current Sociology**, 1996 Vols 1 4 contain v 1 4 of International bibliography of sociology
