Marxism After Marx:

Marxism After Marx David McLellan, 1981 Marxism after Marx is the only one volume comprehensive examination of the work of every major Marxist thinker The book is divided into five main sections the German Social Democrats Russian Marxism European Marxism between the wars China and the Third World and contemporary Marxism in Europe and the United States Each section contains a valuable list of readings and a complete bibliography Written by one of the most respected scholars in the field Marxism after Marx is a detailed lucid history of Marxist ideas a reliable guide to the most influential body of thought in our age Book cover Marxism after Marx, Fourth Edition David McLellan, 2007-03-15 The fourth edition of Marxism after Marx is an updated version of what has become the classic account of Twentieth century Marxism It includes new bibliographical information and sections covering developments since the previous edition This new edition represents a comprehensive and reliable guide to one of the most influential bodies of thought of the Twentieth century After Marx Colleen Lye, Christopher Nealon, 2022-03-17 After Marx showcases the importance of Marxist literary study for an era of intersectional politics and economic decline **Beyond Marxism?** Judith Allen, Paul Patton, 1983 Includes paper by C Alexander annotated separately After Marx Terence Ball, James Farr, 1984-06-29 These twelve original essays are after Marx in several senses The first and most obvious is the purely chronological sense They are written one hundred years after Marx's death The authors are therefore able to see more clearly what Marx did not or could not see and to see more clearly that which he foresaw only dimly The second sense in which they are after Marx is political In this century virtually all revolutionaries call themselves Marxists and purport to apply Marx's precepts to political practice Armed with their different interpretations of a nineteenth century theory they have altered and continue to reshape the political contours of the twentieth century Marx raised more questions than he or anyone else could ever reasonably hope to answer To raise anew some of these questions and to approach them in the critical spirit of Marx's own thinking are the common themes running through and uniting these essays **Engels After Marx** Manfred B. Steger, Terrell Carver, 2010-11-01

Marxism After Marx Herbert Gamberg, Tony Thomson, Zhanbin Ma, 2016-05-01 The major aim of this book is to examine and critique the political movements that Marx directly confronted or that derived from Marx following his death in 1883 when a variety of Marxist parties arose in opposition to one another Circling Marx: Essays 1980-2020 Peter Beilharz, 2020-12-07 Karl Marx circles us and we him This reflects the power of his legacy but it also indicates the nature of the intellectual process We move around objects of interest and insight working by successive approximations Peter Beilharz has been circling Marx for forty years This volume of essays expands the metaphor by working through three circles in the history of Marxism The first works with Marx the second with the classical legacy through to Bolshevism and western marxism the third steps closer to the present in thinkers such as Bauman Heller and Castoriadis Read together these essays represent a lifetime's engagement with Marx and his intellectual consequences After Marx, Before Lenin Gary P.

Steenson,1991 The 30 years preceding World War I were critical for the development of European workers parties When Marx died in 1883 only Germany had a viable working class movement by 1914 most central and western European countries had large and growing workers parties with leaders committed both to what they understood as Marx s political ideas and to full participation in representative politics Friedrich Engels and the Dialectics of Nature Kaan Kangal,2020-01-27 Reading different or controversial intentions into Marx and Engels works has been a common but somewhat unquestioned practice in the history of Marxist scholarship Engels Dialectics of Nature a torso for some and a great book for others is a case in point The entire Engels debate separates into two opposite views Engels the contaminator of Marx s new materialism vs Engels the self educated genius of dialectical materialism What Engels unlike Marx has not enjoyed so far is a critical reading that considers the relationship between different layers of this standard text authorial textual editorial and interpretational Informed by a historical hermeneutic this book questions the elements that structure the debate on the Dialectics of Nature It analyzes different political and philosophical functions attached to Engels text and relocates the meaning of the term dialectics into a more precise context Arguing that Engels dialectics is less complete than we usually think it is but that he achieved more than most scholars would like to admit this book fully documents and critically analyzes Engels intentions and concerns in the Dialectics of Nature the process of writing and its reception and edition history in order to reconstruct the solved and unsolved philosophical problems in this unfinished work **Philosophy after Marx** Christoph Henning,2014-04-17 Christoph Henning writes a concise history of misreadings of Marx in the 20th century Focussing on German philosophy from Heidegger to Habermas he also addresses the influence of Rawls and Neopragmatism subsequently scrutinizing a previous history of Marx interpretations that had served as the premises upon which these later works were based Henning sketches a historical trajectory in which a theory of socialist politics enters the fields of economics sociology critical theory and theology before finally overloaded with intellectually dead freight entering into philosophy In so doing he takes a hermeneutic approach to how misreadings in a specific field proliferate into further misreadings across a variety of fields leading to an accumulation of questionable preconceptions With the recent resurgence of interest in Marx Henning s historical recursions make evident where and how academic Anti Marxism had previously got it wrong English translation of Philosophie nach Marx 100 Jahre Marxrezeption und die normative Sozialphilosophie der Gegenwart in der Kritik Transcript Verlag Bielefeld 2005 **Routledge International Handbook of Contemporary Social and Political Theory** Gerard Delanty,Stephen P. Turner,2021-09-20 The triangular relationship between the social the political and the cultural has opened up social and political theory to new challenges The social can no longer be reduced to the category of society and the political extends beyond the traditional concerns of the nature of the state and political authority This Handbook will address a range of issues that have recently emerged from the disciplines of social and political theory focusing on key themes as opposed to schools of thought or major theorists It is divided into three sections which

address the most influential theoretical traditions that have emerged from the legacy of the twentieth century the most important new and emerging frameworks of analysis today the major theoretical problems in recent social and political theory The Second edition is an enlarged revised and updated version of the first edition which was published in 2011 and comprised 42 chapters The new edition consists of 50 chapters of which seventeen are entirely new chapters covering topics that have become increasingly prominent in social and political theory in recent years such as populism the new materialism postcolonialism Deleuzean theory post humanism post capitalism as well as older topics that were not covered in the first edition such as Arendt the gift critical realism anarchism All chapters retained from the first edition have been thoroughly revised and updated The Routledge International Handbook of Contemporary Social and Political Theory encompasses the most up to date developments in contemporary social and political theory and as such is an essential research tool for both undergraduate and postgraduate students as well as researchers working in the fields of political theory social and political philosophy contemporary social theory and cultural theory **After Marx, Before Lenin** Gary P. Steenson,1991 **Marx After Marxism** Tom Rockmore,2008-04-30 Marx After Marxism encourages readers to understand Karl Marx in new ways unencumbered by political Marxist interpretations that have long dominated the discussions of both Marxists and non Marxists This volume gives a broad and accessible account of Marx s philosophy and emphasizes his relationship to Hegel
