The Marxist Reader, 1982 **A Reader's Guide to Marx's Capital** Joseph Choonara, 2019-07-19 p This book carefully guides the reader through each chapter of the first volume of Capital It sets Marx's arguments in context and explains their relevance today and it offers insights into Marx's method highlighting key concepts running through the book It also offers pointers to wider works that can provide further illumination *From Marx to Gramsci* Paul Le Blanc, 1996 Historical reflections are blended with discussion of the durability of capitalism the disappointment of hopes for workers revolution the collapse of communism issues of race and gender the environment and challenges of the twenty first century **Reading Marx Writing** Thomas M. Kemple, 1995 Employing the insights of recent cultural critics Reading Marx Writing uses the eight notebooks the Grundrisse Marx worked on in 1857-58 to examine his literary political and scientific imagination and the fictional writers he admired By exploring the Grundrisse the project or plan that Marx did not carry through the author speculates on the limits and possibilities of Marx's interpretive approach for addressing current issues in philosophy and hermeneutics critical sociology and political economy and aesthetics and literary criticism The study employs certain literary works notably a scene from Goethe's Faust and several stories from Balzac's Comedie humaine as looking glasses or sounding boards for Marx's political and scientific concerns and to connect themes emerging from the cultural economy of the nineteenth century These literary works are treated less as dramatic illustrations of Marx's life or depictions of his scientific insights than as interpretive frameworks or social fictions which give shape to both Marx's text and the writings of others working in his wake Through an innovative blend of German critical theory Lukacs Marcuse and Habermas French post structuralism Althusser Lyotard and Baudrillard and Anglo American cultural criticism Jameson Mitchell and O'Neill the author develops a unique method for articulating the play of image text and even music within Marx's human scientific discourse **Reader's Guide to Literature in English** Mark Hawkins-Dady, 1996 First Published in 1996 Routledge is an imprint of Taylor Francis an informa company *Karl Marx* Karl Marx, 1986 A selection of Karl Marx's most important writings are contained in this volume It was designed as a companion to Elster's An introduction to Karl Marx but may be used alone **Reader in Marxist Philosophy** Howard Selsam, Harry Martel, 1963 The basic philosophical thought of Marx Engels and Lenin gathered together in the categories customary to Western philosophy The Marx-Engels Reader Karl Marx, 1972 This new anthology brings together the essential writings of Marx and Engels those works necessary for an introduction to Marxist thought and ideology The volume is so arranged as to show both the chronological and the thematic development of the two great thinkers Selections range in coverage from history society and economics to politics philosophy and the strategy and tactics of social revolution Each selection is introduced by Professor Tucker and where possible is presented in its entirety Part I presents the writings of the young Marx the works that have aroused so much interest and caused so much debate in the past decade Part II includes works critical of capitalism and for the first time in an anthology

Part IV includes those writings critical of society and politics in the nineteenth century not only European but also Asian and Russian as well. The concluding section Part V presents the later writings of Engels in which Marxism was popularized and systematized for the benefit of the masses. The *Marx Engels Reader* contains an interpretive general introduction that traces and analyzes the development of Marxist philosophy, a chronology of major events in the lives of Marx and Engels, a bibliographic note, and an index. The editor Robert C. Tucker is a professor of politics and director of Russian studies at Princeton University. He received his Ph.D. from Harvard University and has also taught at Indiana University. Among his many publications are *Philosophy and Myth in Karl Marx*, *The Soviet Political Mind* (Revised Edition, Norton), and *The Marxian Revolutionary Idea* (Norton).

Contemporary Marxist Theory Andrew Pendakis, Jeff Diamanti, Nicholas Brown, Josh Robinson, Imre Szeman, 2014-10-23. This volume brings together works written by international theorists since the fall of the Berlin Wall, showing how today's crisis-ridden global capitalism is making Marxist theory more relevant and necessary than ever. This collection of key texts by prominent and lesser-known thinkers from Latin America, Asia, Africa, America, and Europe showcases an area of scholarly analysis whose impact on academic and popular discourses, as well as political action, will only grow in the coming years. It reflects today's sense of planetary eco-emergency and a heightened interest in political economy that follows discontentment with the growing inequalities in the West and the unequal nature of development in the global South. The work is organized thematically with sections covering the present historical conjuncture, the contemporary shapes of the social philosophical concepts, theories of culture, and the status of the political today. This new formulation of the unity and nature of contemporary Marxist theory will be an invaluable resource to any humanities and social science student learning about social and political thought and theory.

Reader's Guide to the Social Sciences Jonathan Michie, 2014-02-03. This 2-volume work includes approximately 1,200 entries in A-Z order, critically reviewing the literature on specific topics from abortion to world systems theory. In addition, nine major entries cover each of the major disciplines: political economy, management and business, human geography, politics, sociology, law, psychology, organizational behavior, and the history and development of the social sciences in a broader sense.

The Poulantzas Reader Nicos Poulantzas, 2020-05-05. Nicos Poulantzas was one of the leading Marxist theorists of the twentieth century, developing seminal analyses of the state and social classes during the crisis of monopoly capitalism. This volume brings together a wide selection of Poulantzas' key writings in legal philosophy and political sociology, including some important pieces translated here for the first time. Texts include his early analyses of law, his studies of hegemony, authoritarianism, and social classes, and his debate on the state with Ralph Miliband and Ernesto Laclau.
