"...Seemed not so much to be playing the music as breathing it."

Marxstring Quartets

Ian Bent

Marxstring Quartets:

Beethoven's Theatrical Quartets Nancy November, 2014-01-09 Beethoven's middle period quartets Opp 59 74 and 95 are pieces that engage deeply with the aesthetic ideas of their time In the first full contextual study of these works Nancy November celebrates their uniqueness exploring their reception history and early performance In detailed analyses she explores ways in which the quartets have both reflected and shaped the very idea of chamber music and offers a new historical understanding of the works physical visual social and ideological aspects In the process November provides a fresh critique of three key paradigms in current Beethoven studies the focus on his late period the emphasis on heroic style in discussions of the middle period and the idea of string quartets as pure autonomous artworks cut off from social moorings Importantly this study shows that the quartets encompass a new lyric and theatrical impetus which is an essential part of their unique explorative character *Beethoven's Critics* Robin Wallace, 1990-01-26 This 1990 book is a survey of the critical reaction to Beethoven's music as it appeared in the major musical journals French as well as German of his day and represents the first published history of Beethoven reception The author discusses the philosophical and analytical implications of these reviews and reassesses what has come to be the accepted view of a nineteenth century musical aesthetics rooted in Romantic Idealism Wallace sees Beethoven's critics as in fact providing a link between two apparently antithetical approaches to music the eighteenth century emphasis on expression and extra musical interpretation and the nineteenth century emphasis on absolute music and formal analysis This book thus provides in addition to a carefully documented study of Beethoven's critical reception a re evaluation of his oeuvre and its significance in music history An index of all reviews cited is provided and a further appendix contains the quoted material in its original language Karl Marx Allan Megill, 2001-12-11 Why did Karl Marx want to exclude politics and the market from his vision of a future socialism In *Karl Marx The Burden of Reason* Allan Megill begins with this question Megill's examination of Marx's formative writings casts new light on Marx's relation to philosophy and reveals a hitherto largely unknown rationalist Marx In demonstrating how Marx's rationalism permeated his attempts to understand politics economics and history generally Megill forces the reader to rethink Marx's entire intellectual project While Megill writes as an intellectual historian and historian of philosophy his highly original redescription of the Marxian enterprise has important implications for how we think about the usability of Marx's work today *Karl Marx The Burden of Reason* will be of interest to those who wish to reflect on the fate of Marxism during the era of Soviet Communism It will also be of interest to those who wish to discern what is living and what is dead what is adequate and what requires replacement or supplementation in the work of a figure who in spite of everything remains one of the greatest philosophers and social scientists of the modern world Catalogue of (printed) music. Music. Accessions, pt.[1]-94 British museum dept. of pr. books, 1884 The Violinist, 1909 **The National Union Catalog, Pre-1956 Imprints**, 1975 *Beethoven's Quartets* Joseph de Marliave, 1928 Remarkably readable and accessible this

classic exposition presents a bar by bar theme by theme analysis of all 16 quartets and the Grosse Fuge Joseph de Marliave eschews technical terms focusing on mood and general effects His numerous musical examples 321 in all offer crystalline illustrations of Beethoven's major themes and allow readers to follow every development and embellishment In addition to musicological information the author provides a complete background encompassing dates of composition reactions of contemporary audiences and critics the influences of Mozart and Haydn and Beethoven's transcendence of established forms Scholars will find abundant source material including quotations from other studies of Beethoven personal remarks by the composer and contemporary comments by Beethoven's patrons and friends Clear and detailed analyses in addition to a wealth of documentary material make this book one of the most complete and authoritative studies of Beethoven's quartets as well as one of the most enjoyable Book jacket

The Literature of Chamber Music: Labey to Ronsheim Arthur Cohn, 1997 The Strad, 1896 Music Theory in the Age of Romanticism Ian Bent, 1996-08-28 Twelve brilliant historians of theory probe the mind of the Romantic era in its thinking about music *The Gramophone*, 2000 *The Index of Violin Music* Wayne Wilkins, 1973 *Bibliographic Guide to Music* GK Hall, 2002-07 The holdings of the Music Division of the New York Public Library cover virtually all musical subjects its scores represent a broad spectrum of musical style and history

National Union Catalog, 1983 The Musical Times and Singing-class Circular, 1926 **Cobbett's Cyclopedic Survey of Chamber Music** Walter Willson Cobbett, 1930 Aesthetics, Theory and History in the Works of Adolph Bernhard Marx Scott G. Burnham, 1988 **The Musical Times & Singing-class Circular**, 1922 **Beethoven** Michael Spitzer, 2017-07-05 Our image of Beethoven has been transformed by the research generated by a succession of scholars and theorists who blazed new trails from the 1960s onwards This collection of articles written by leading Beethoven scholars brings together strands of this mainly Anglo American research over the last fifty years and addresses a range of key issues The volume places Beethoven scholarship within a historical and contemporary context and considers the future of Beethoven studies **Pierre Key's Music Year Book**, 1926
