the history of the literary essay the roles of women in the American Revolution and the activities of the southern convention in Nashville in 1850 captured Simms's attention Moltke Hansen's introduction to part two examines Simms's roles in and responses to the Romantic critical revolution and the other revolutions then roiling Europe and America     **Reader's Guide to Periodical Literature Supplement** ,1923     **Writers' Markets & Methods** ,1948     **The Bookman** ,1924     A Poetics of Editing Susan L. Greenberg,2018-09-03 This original and authoritative book offers a first ever attempt to define a poetics of the editing arts It proposes a new field of editing studies in which the ideal editor can be understood in relation to the long theorised author and reader The book's premise is that editing like other forms of making is mostly invisible and can only be brought into full view through a comparative analysis that includes the insights of practitioners The argument laid down in careful layers is supported by a panoramic historical narrative that tracks the shifts in textual authority from religious and secular institutions to the romanticised self of the digital present The dangers posed by the anti editing rhetoric of this hybrid romanticism are confronted head on To the traditional perception of editing as the imposition of closure A Poetics of Editing adds a perspective on a dynamic process with a sense of the possible     *The Publishers Weekly* ,1930
