Message From Infinity:

Infinity's Shore David Brin,2021-05-25 A once peaceful planet of refugees faces complete annihilation in this hard science fiction sequel to Brightness Reef Book Two in the Uplift Storm Trilogy. It's illegal to occupy the planet Jijo but six castaway races have managed to coexist there for some time. They've successfully hidden from watchful law enforcers of the Five Galaxies until now. After making an amazing discovery far away a derelict armada whose mere existence triggered interstellar war the Terran exploration vessel Streaker and its crew of humans and dolphins arrive at Jijo in search of sanctuary from the Galactic forces out to destroy them. But they were followed. As behemoth Galactic starships descend upon Jijo heroic and terrifying choices must be made. Together human and alien settlers must choose whether to fight the invaders or join them. The crew of the Streaker meanwhile discovers something that just might save Jijo and its inhabitants or destroy every last one of them. Well paced immensely complex highly literate Superior SF Publishers Weekly starred review. An imaginative drama of excitement and wonder. The sheer virtuosity of the prose alone makes this book worth reading. SF Site

Metaphase Cast out from interstellar civilization the crew of the Starfarer encounters an extraterrestrial whose reputation is equally bad the squidmoth Contact specialist J D Sauvage risks her life to befriend the creature trusting her instincts instead of the warnings of the alien human. The welcome Sauvage receives and the connection she makes will help her overcome her innate fears and prejudices and she will be given a gift that will save her from being left behind in an empty star system as well as redeem the Starfarer and its mission Nautilus. After their encounter with the squidmoth and with their ecosystem immunized by the alien human the crew of the Starfarer makes contact with representatives from the Four Worlds. J D Sauvage is sent to meet the furry creatures as large as lions and as lithe as otters. They have been waiting for humans for a long time. But there is something they want from the Starfarer team. Earth's one advantage over space civilization a new faster algorithm for interstellar navigation. Praise for the Starfarers Series. McIntyre is a master SF stylist creating well rounded believable and distinctive characters and she excels at lush descriptions that allow the reader to visualize the action. Publishers Weekly. The series features a diverse cast especially for its 1989 debut date and a series of interstellar hijinks the likes of which only McIntyre could conjure. [Tor.com](#) [FCC Record](#) United States.
