Message A Modern Literal Translation Of:

The Message ,2003 **HIEROGLYPHS OF THE PHAISTOS DISC: history and full text translation.** Vitaly Surnin,2013-12-28 This book is the preliminary part of a great work titled THE BOOK OF THE EGYPTIAN The beginning of the basic Egyptology or a key to the understanding of history philosophy and world religion Usually the introduction is made in the form of a brief preface or foreword but I got a whole book as the first step in a multi volume publication of the study The purpose of this specific introduction as the beginning of serious research is right at the level of the opening to inspire a reader showing him in a clear visual and comprehensible form the whole true mechanism of the hieroglyphic writing To achieve this I will completely dispel the myth created by the modern science that hieroglyphs do not convey any meaning of words the whole idea but only individual sounds letters or their combination syllables This scientific myth will be finally deprived of the status of scientific knowledge and the translation of the Phaistos disc on the contrary will be clearly shown what is called broken apart and will be read in the ancient hieroglyphic language united by the principle of construction in the language of the ancient Egyptians I can say that it will not be two simultaneously existing systems of hieroglyphs translation as well as two Egyptologies one will be false and the other true To prove the validity of the system of translation I wanted to give you immediately not only a complete translation of the text of the Phaistos disc where the number of occurrences of each hieroglyph is not big 1 to 19 times but the translation of the whole ancient Egyptian writing because the number of times it is used in there is thousands if not even millions And each such use of each hieroglyph is translating in the same way so it creates the full reading of the hieroglyphic texts writing which will be easily read by everyone with the dictionary of hieroglyphs in the future The main reason why I wanted to do it is because at first I read the ancient Egyptian texts and only then by chance came across with the hieroglyphs of the Phaistos disc But then I decided to set a different aim to teach the reader to think and not just to read hieroglyphs Since we have no ancient Egyptian temple and you re not its novice the method of achieving the aims will be different than in the antiquity First of all I would suggest not a translation of ancient Egyptian hieroglyphs but a complete translation of the Phaistos disc and at the same time to give them a sort of test of common sense to modern science in the face of particular academies and universities of the world Let them answer me the question not knowing the translations of ancient Egyptian texts whether they think this translation of the Phaistos disc is correct So when I completely publish The Book of Egyptian it will become clear who they are and where do they lead all of you As they always test the students it s a time to test them as well Will they pass the test I do not know but any way you my reader will get to know about it in the main manuscript and will be able to draw your own conclusions about their intellectual level Therefore I recommend you to take this message of the book at least with the attention because not every day the science gets a ready revelation designed in the form of scientific study And here the attention and common sense will help the reader to re look the original pure uncomplicated meaning of the Hieroglyphs which through the veil of delusion will

finally begin to appear in their true original and vibrant colors and finally get from the nether world into the realm of the living

A History of Modern Translation Knowledge Lieven D'hulst, Yves Gambier, 2018-06-28

A History of Modern Translation Knowledge is the first attempt to map the coming into being of modern thinking about translation It breaks with the well established tradition of viewing history through the reductive lens of schools theories turns or interdisciplinary exchanges It also challenges the artificial distinction between past and present and it sustains that the latter's historical roots go back far beyond the 1970s Translation Studies is but part of a broader set of discourses on translation we propose to label translation knowledge This book concentrates on seven processes that make up the history of modern translation knowledge generating mapping internationalising historicising analysing disseminating and applying knowledge All processes are covered by 58 domain experts and allocated over 55 chapters with cross references This book is indispensable reading for advanced Master and PhD students in Translation Studies who need background information on the history of their field with relevance for Europe the Americas and large parts of Asia It will also interest students and scholars working in cultural and social history

The Bloomsbury Handbook of Modern Chinese Literature in Translation Cosima Bruno, Lucas Klein, Chris Song, 2023-10-19

Offering the first systematic overview of modern and contemporary Chinese literature from a translation studies perspective this handbook provides students researchers and teachers with a context in which to read and appreciate the effects of linguistic and cultural transfer in Chinese literary works Translation matters It always has of course but more so when we want to reap the benefits of intercultural communication In many universities Chinese literature in English translation is taught as if it had been written in English As a result students submit what they read to their own cultural expectations they do not read in translation and do not attend to the protocols of knowing engagements and contestations that bind literature and society to each other The Bloomsbury Handbook of Modern Chinese Literature in Translation squarely addresses this pedagogical lack Organised in a tripartite structure around considerations of textual social and large scale spatial and historical circumstances its thirty plus essays each deal with a theme of translation studies as emerged from the translation of one or more Chinese literary works In doing so it offers new tools for reading and appreciating modern and contemporary Chinese literature in the

global context of its translation offering in depth studies about eminent Chinese authors and their literary masterpieces in translation The first of its kind this book is essential reading for anyone studying or researching Chinese literature in translation

Jewish Studies in the Digital Age Gerben Zaagsma, Daniel Stökl Ben Ezra, Miriam Rürup, Michelle Margolis, Amalia S. Levi, 2022-10-03 As in all fields and disciplines of the humanities Jewish Studies scholars find themselves confronted with the rapidly increasing availability of digital resources data new technologies to interrogate and analyze them tools and the question of how to critically engage with these developments This volume discusses how the digital turn has affected the field of Jewish Studies It explores the current state of the art and probes how digital developments can be harnessed to address the specific questions challenges and problems that Jewish Studies scholars confront In a field characterised by dispersed sources and heterogeneous scripts and languages that speak to a multitude of cultures and histories of abundance as well as loss what is the promise of Digital Humanities methods and what are the challenges and pitfalls The articles in this volume were originally presented at the international conference DHJewish Jewish Studies in the Digital Age which was organised at the Centre for Contemporary and Digital History C2DH at University of Luxembourg in January 2021 The first big international conference of its kind it brought together more than sixty scholars and heritage practitioners to discuss how the digital turn affects the field of Jewish Studies
