**RePresenting Magic, UnDoing Evil: Of Human Inner Light and**

**Darkness** Alexandra Cheira,2020-04-14 This volume was first published by Inter Disciplinary Press in 2012 The chapters assembled in this e Book are a taste of an ongoing discussion on evil and magic which promises to last as long as the only thing necessary for the triumph of evil is for good men to do nothing and while the realisation that magic is believing in yourself if you can do that you can make anything happen does not become a global motto The first group of chapters collected in Part I addresses the ethics and effects of translating magic into literary representations as well as real life current practices of creativity and personal change on the one hand and of the harmful malevolent infliction of pain on a third party on another thus challenging the boundaries of the cultural binary constructions of magic as either good or evil In Part II the second group of chapters examines several philosophical theological historical literary political and pop culture attempts towards understanding different meanings and kinds of evil thus broadening our perception of what evil is and how it has been theorized from Plato to contemporary international politics This is our time our call our responsibility to undo evil by carrying the magical torch of good to the next station so that good as if by magic can also become contagious among the human kind

**Meta Morphing** Vivian Carol Sobchack,2000 Two thousand years ago Ovid asked his readers to imagine metamorphoses in which men and women became flowers and beasts Today before our cinema savvy eyes people melt and re form as altogether new creatures they morph This volume explores what digital morphing means both as a cultural practice specific to our times and as a link to a much broader history of images of human transformation Meta Morphing ranges over topics that include turn of the century quick change artists Mesoamerican shamanic transformation and cosmetic surgery recent works such as Terminator 2 Star Trek Deep Space Nine Heavenly Creatures and Forrest Gump and the transformations imagined by Kafka Proust and Burroughs The contributors look not only at the technical wizardry behind digital morphing but also at the history and cultural concerns it expresses
