Metaphysics of Love and Sexes Arthur Schopenhauer, & Al., 2025-10-22 What is love Ask him who lives what is life We are accustomed to see poets principally occupied with describing the love of the sexes This as a rule is the leading idea of every dramatic work be it tragic or comic romantic or classic Indian or European It in no less degree constitutes the greater part of both lyric and epic poetry

The Metaphysics of Love Frederick D. Wilhelmsen, 2015-10-28 The Metaphysics of Love develops the existential metaphysics of St Thomas Aquinas applying it to explore the ontological structure of the human person Published first in 1962 this book demonstrates the fertility of Thomistic metaphysics and the enduring influence of Thomism on Western philosophy It uncovers the ecstatic structure of human existence in dialogue with philosophers ranging from Plato Aristotle and Aquinas to Kant Hegel Heidegger Tillich Zubiri and Ortega y Gasset as well as theologians and historians Romano Guardini Hilaire Belloc and Eric Voegelin Philosophical and theological examinations of love have in various ways raised the following question how can love of self eros be harmonized with love of others agape These types of love represent two drives Wilhelmsen argues that in the end must be seen as aspects of existence itself Moral and psychological problems of love turn out to be manifestations of metaphysical issues While different cultures have emphasized one of these drives or the other a healthy culture will not completely forget either Cultures differ in the way they emphasize one or the other or flee from one or the other These dimensions of human existence provide the framework for a person's love of self neighbor and God This volume is part of Transaction's Library of Conservative Thought series

The Metaphysics of the Sexual Love Arthur Schopenhauer, 2018-12-12 Schopenhauer innovates by introducing the issue of sexuality into western philosophy Of course his assessment of it is not an encouraging one For him it embodies the will to life more strongly than any other urge or desire hence it is responsible for the misery of the human condition more than anything else Even the most elevated form of romantic love is nothing but a mental addition or justification for the natural need for sex and the species desire to maintain itself After succumbing to our sexual desires he says we realize that we have once again been deceived by the

instinct of survival that seeks procreation through us The lessening of sexual desire with age is thus to be welcomed as a liberation Needless to say Schopenhauer remained celibate throughout his life Schopenhauer New world encyclopedia
