Metaphysics And Belief:

Metaphysics and Belief Fr. Merlan,2012-12-06 *On the Metaphysics of Belief* Cara J. Spencer,1998 Metaphysics and Belief ,1966 **Belief and Metaphysics** Conor Cunningham,Peter M. Candler,2007 This is an exciting distinguished and indeed brave volume on the relation between belief and metaphysics The volume of twenty essays is exciting in that the points of entry to the question of relation and styles of discourse are so varied while less established voices are allowed to sound with the more established it is distinguished not simply because of its many famous names but because it unites in one volume analytic and continental philosophical approaches to the issue to the common purpose of retrieving yet also reconceiving metaphysics and it is brave in that not only does it refuse to indulge the contemporary prejudice against metaphysics and the necessity for belief to forgo the comfort of relation but brings to the surface postmodernity's own penchant for axiomatics and its containment of the religious by uncoupling it from metaphysical commitments Cyril O'Regan Catherine F. Huisking Professor of Theology Department of Theology Notre Dame Without metaphysics theology is boring some one says in this book without theology metaphysics goes nowhere some one else says Of course it depends what you mean by metaphysics and for that matter theology There is more than enough here to interest entertain and even enrage philosophers and especially theologians A MARVELLOUS COLLECTION Fergus Kerr O.P. Honorary Fellow in the School of Divinity at the University of Edinburgh This is a truly splendid collection of essays admirable not only for its range but for its depth It would be hard to assemble a more distinguished cast of contributors and harder still to find another volume that offers comparably rich and varied reflections on the profound relation between faith and metaphysical reasoning David Bentley Hart **Science, metaphysics, religion** VV.,Agazzi,2014 *Unreal Beliefs* Krzysztof Poslajko,2024-05-16 A compelling version of an anti realist view about beliefs rejecting the extreme proposal of eliminativism that beliefs do not exist *Reasons for Belief* Andrew Reisner,Asbjørn Steglich-Petersen,2011-06-02 Philosophers have long been concerned about what we know and how we know it Increasingly however a related question has gained prominence in philosophical discussion what should we believe and why This volume brings together twelve new essays that address different aspects of this question The essays examine foundational questions about reasons for belief and use new research on reasons for belief to address traditional epistemological concerns such as knowledge justification and perceptually acquired beliefs This book will be of interest to philosophers working on epistemology theoretical reason rationality perception and ethics It will also be of interest to cognitive scientists and psychologists who wish to gain deeper insight into normative questions about belief and knowledge **WILLIAM JAMES' VIEWS ON METAPHYSICS: A STUDY IN THE JUSTIFICATION OF BELIEF.** ROBERT T. ROELOFS,1953 The God of Metaphysics T. L. S. Sprigge,2006-04-20 Can philosophy offer reasonable grounds for the existence of a God or Absolute possessing genuine even if not orthodox religious significance and not proposed simply as the solution to a purely intellectual philosophical problem Certainly many contemporary thinkers have insisted that no genuine

religion could be based upon metaphysics In this book however T L S Sprigge examines sympathetically the most notable metaphysical systems of the last four centuries which purport to put religion on a rational footing and after a thorough examination of their claims considers what kind of religious outlook they might support and more briefly how they actually affected the lives of their proponents The thinkers studied include Spinoza Hegel T H Green Bernard Bosanquet together with a brief discussion of Bradley Josiah Royce A N Whitehead and Charles Hartshorne concluding with an exposition of the author's own viewpoint pantheistic absolute idealism and a general discussion on the relation between metaphysics and religion There is also a chapter on Kierkegaard as the most important critic of metaphysical religion *Self-deception and the Metaphysics of Belief* D.
