[Global Education Monitoring Report](#) Global Education Monitoring Report Team, South-East Asian Ministers of Education Organization, 2023-12-01 **Global Trends and Policy Impacts in Home Healthcare** Çapar, Haşim, Çakmak, Mehmet Aziz, 2025-08-12 Global trends and policy shifts in home healthcare reshape how care is delivered, financed and regulated globally. Driven by aging populations, rising chronic disease rates and patient preferences for staying at home, the demand for home-based healthcare services has increased. Governments are also introducing innovative policies to ensure quality, cost-effectiveness and equitable access. These developments transform the delivery of skilled nursing, rehabilitation and telehealth services in patients' own homes while redefining broader healthcare systems. Further research is vital to understand how global trends and policy initiatives interact, shaping outcomes for patients, providers and health systems.

Emerging Trends in Technology for Education in an Uncertain World Dwi Nanto, Maila Rahiem, Tita Maryati, 2021-12-24 Presently, people are facing a condition called VUCA (Volatility, Uncertainty, Complexity, and Ambiguity) where this condition is described as a turbulent, uncertain, complicated, and unclear condition. The world of work and industry is changing quickly, driven by the development of technology, information, and communication. Advances in computer technology, artificial intelligence, and robotics, which is also called as the industrial revolution 4.0, eras are of significant influence on the environment and people. A time where humans must learn quickly and an era where the future is unpredictable, where choices for various conditions are increasing and mindsets are changing. The big challenge for educational institutions, especially Islamic educational institutions today, is how to prepare young people on various aspects of cognitive, mental, and spiritual preparedness to face the changing environment. Development in the real world is far more complex than what is learned in the classroom, so it is necessary to educate and transform the curriculum that is directed in accordance with the demands of present times. The 6th International Conference on Emerging Trends in Technology for Education in Facing VUCA (Volatility, Uncertainty, Complexity, and Ambiguity) is designed not only to share research but also to offer recommendations to governments, educational institutions, and other stakeholders to improve the quality of education through technology-based educational programs. The conference was held by the Faculty of Education, UIN Syarif Hidayatullah Jakarta. Scholars, researchers, policy makers, teachers, and students from various countries participated and worked together to discuss how to improve the quality of education in the Muslim community. Guided by UIN Jakarta, the 6th ICEMS of 2020 provided opportunities for various educational stakeholders, especially in Muslim Communities around the world.

Leung, James Francis Kenny, Paul S. N. Lee, 2006 **Knowledge & Power in the Global Economy** David Gabbard, 2008 The second edition of Knowledge and Power in the Global Economy examines how neoliberal and neoconservative policies are working in tandem to privatize and commercialize public schools It looks at how these policies and the agendas behind them have impacted the internal dynamics of school management teaching and learning as well as how they have transformed the external dynamics of education from a public good or service offered to serve public interests to a private enterprise primarily serving private interests In addition to information critique and analysis multiple perspectives are provided that readers can draw upon to formulate an alternative vision of education as a crucial element of social change along democratic and egalitarian lines The first edition of this volume provided a critical encyclopedic approach to the rhetoric of educational reform as it developed from the 1980s through the 1990s critiquing its vocabulary elaborating the multiplicity of ways that the logic of neoliberalism and the emerging patterns of high stakes testing and accountability were impacting the curriculum and introducing ideas associated with alternative and liberatory educational projects Since its publication in 2000 policy developments such as the No Child Left Behind Act of 2001 in the U S and others in the U K and other parts of the world have nationalized and intensified these patterns deepening the logic and extent of neoliberalism s hold over educational reforms At the same time it is impossible to understand the current crises in education solely in terms of neoliberalism the impact of neoconservatism must also be considered Hence this second edition has a new subtitle The Effects of School Reform in a Neoliberal Neoconservative Age This edition is structured around five themes Political and Social Foundations Anti Educational Foundations The Set Up Anti Educational Foundations The Trap Classroom Consequences and Democracy s Path This volume will particularly interest scholars and professionals across the fields of educational foundations curriculum theory and educational policy and is well suited as a text for courses in these areas
