## Over The Front Volume 13 No 2 Summer 1998:

**From Gaza to Jerusalem** Stuart Hadaway,2015-10-01 The Palestine campaign of 1917 saw Britain's armed forces rise from defeat to achieve stunning victory After two failed attempts in the spring at the end of the year they broke through the Ottoman line with an innovative mixture of old and new technology and tactics and managed to advance over 50 miles from Gaza to Jerusalem in only two months As well as discussions of military strategy Stuart Hadaway's gripping narrative of the campaign gives a broad account of the men on both sides who lived and fought in the harsh desert conditions of Palestine facing not only brave and determined enemies but also the environment itself heat disease and an ever present thirst Involving Ottoman ANZAC British and Arab forces the campaign saw great empires manoeuvring for the coveted Holy Land It was Britain's victory in 1917 however that redrew the maps of the Middle East and shaped the political climate for the century to come

*Over the Front ,2008* Studies in Gangs and Cartels Robert J. Bunker,2017-07-05 Concerns over the changing nature of gangs and cartels and their relationships to states in the late 20th and early 21st centuries has resulted in the emergence of a scholarly body of work focused on their national security threat potentials This body of work utilizing the third generation gangs and third phase cartel typologies represents an alternative to traditional gang and organized crime research and one that is increasingly influencing the US defense community Rather than being viewed only as misguided youth and opportunistic criminals or in their mature forms as criminal organizations with no broader social or political agendas more evolved gangs and cartels are instead seen as developing political mercenary and state challenging capacities This evolutionary process has emerged due to the growing illicit economy and other unintended consequences of globalization This important anthology of writings by Robert J Bunker and John P Sullivan draws upon a collection of their works from the mid 1990s to the present with the addition of new essays written specifically for this publication The work will be of great interest to academics and students in the fields of political science and criminal justice and to military law enforcement and governmental professionals and policy makers This book is a collection of new and previously published works from a variety of publications a full list of which is on the Citation Information page

**God's Perfect Child** Caroline Fraser,2018-06-19 From the Pulitzer Prize winning author the most powerful and persuasive attack on Christian Science to have been written in this century Los Angeles Times Book Review Millions of Americans from Lady Astor to Ginger Rogers to Watergate conspirator H R Haldeman have been touched by the Church of Christ Scientist Founded by Mary Baker Eddy in 1879 Christian Science was based on a belief that intense contemplation of the perfection of God can heal all ills an extreme expression of the American faith in self reliance In this unflinching investigation Caroline Fraser herself raised in a Scientist household shows how the Church transformed itself from a small eccentric sect into a politically powerful and socially respectable religion and explores the human cost of Christian Science's remarkable rise Fraser examines the strange life and psychology of Mary Baker Eddy She takes us into the closed world of Eddy's followers who refuse to acknowledge the

existence of illness and death and reject modern medicine even at the cost of their children's lives. She reveals just how Christian Science managed to gain extraordinary legal and Congressional sanction for its dubious practices and tracks its enormous influence on new age beliefs and other modern healing cults. A passionate expos of zealotry, God's Perfect Child tells one of the most dramatic and little known stories in American religious history. A work of impassioned rationality, important and profoundly disturbing, Susan Jacoby Newsday New Startling Fraser has an eye and ear for the kind of detail that can help readers make up their own minds about an always controversial American religious expression. Martin Marty The Boston Globe Splendid The New York Times Balloon-Busting Aces of World War 1 Jon Guttman, 2013-05-20 Tethered balloons reached their zenith as a means of providing a stationary observation platform above the battlefield during World War I. It took a special breed of daredevil to take on such odds deep in enemy lines in order to destroy a balloon with Balloon specialists such as Willy Coppens, Pierre Bourjade and Michel Coiffard rising to the challenge. This book covers the story of these balloon busters from both sides in World War 1 through a mix of first hand accounts and expert analysis which compares tactics, theatres of operation, aircraft types and the overall odds for success. **Air University Library Index to Military Periodicals**, 1997 Catalogue of the Philatelic Library of the Earl of Crawford, K.T.
