**Scioto Hopewell: Ritual Drama and Personhood in Cross-Cultural Perspective** Christopher Carr, 2022-01-05 This book in two volumes breathes fresh air empirically methodologically and theoretically into understanding the rich ceremonial lives the philosophical religious knowledge and the impressive material feats and labor organization that distinguish Hopewell Indians of central Ohio and neighboring regions during the first centuries CE The first volume defines cross culturally for the first time the ritual drama as a genre of social performance It reconstructs and compares parts of 14 such dramas that Hopewellian and other Woodland period peoples performed in their ceremonial centers to help the soul like essences of their

deceased make the journey to an afterlife The second volume builds and critiques ten formal cross cultural models of personhood and the self and infers the nature of Scioto Hopewell people's ontology Two facets of their ontology are found to have been instrumental in their creating the intercommunity alliances and cooperation and gathering the labor required to construct their huge multicomunity ceremonial centers a relational collective concept of the self defined by the ethical quality of the relationships one has with other beings and a concept of multiple soul like essences that compose a human being and can be harnessed strategically to create familial like ethical bonds of cooperation among individuals and communities The archaeological reconstructions of Hopewellian ritual dramas and concepts of personhood and the self and of Hopewell people's strategic uses of these are informed by three large surveys of historic Woodland and Plains Indians narratives ideas and rites about journeys to afterlives the creatures who inhabit the cosmos and the nature and functions of soul like essences coupled with rich contextual archaeological and bioarchaeological taphonomic analyses The bioarchaeological taphonomic method of *l'anthropologie de terrain* new to North American archaeology is introduced and applied In all the research in this book vitalizes a vision of an anthropology committed to native logic and motivation and skeptical of the imposition of Western world views and categories onto native peoples **Anthropological Series**, 1930

Curtis, 1909 A comprehensive and permanent record of all the important tribes of the United States and Alaska that still retain to a considerable degree their primitive customs and traditions The value of such a work in great measure will lie in the breadth of its treatment in its wealth of illustration and in the fact that it represents the result of personal study of a people who are rapidly losing the traces of their aboriginal character and who are destined ultimately to become assimilated with the superior race It has been the aim to picture all features of the Indian life and environment types of the young and the old with their habitations industries ceremonies games and everyday customs Though the treatment accorded the Indians by those who lay claim to civilization and Christianity has in many cases been worse than criminal a rehearsal of these wrongs does not properly find a place here General introduction **Billboard**
