Companion to Family and Local History David Hey, 2010

Modern Christianity and Cultural Aspirations David Bebbington, Timothy Larsen, 2003-06-01 Christianity and cultural aspirations are inevitably in tension the combination invites a suspicion that temporal pursuits have slackened a quest for divine approbation Nevertheless as Christians generally believe that worldly success may be a position of influence worth seeking for noble reasons it is truly an area of tension rather than merely temptation This volume explores this lively juxtaposition in the context of modern Britain and America In fifteen original essays a range of well respected scholars examine the cultural aspirations of a broad spectrum of Christians including Baptists Congregationalists Methodists Presbyterians Roman Catholics and Anglicans as they were expressed in arenas as diverse as politics education architecture and sport

English and British History in 100 Bite-size Chunks Paul Hodson, 2020-08-25 Very often history is thought of as that lesson we suffered through at school made into boring facts and figures rather than the rich and interesting tales that actually comprise it In English and British History in 100 Bite size Chunks history is enlivened and broken down into readable chunks that anyone can read and learn at their leisure Beginning at the beginning with the physical formation of these lands it ends where we are now with our current lifestyle government society beliefs complexities fears and hopes It charts the development of England s characteristics through the great and the good and ordinary men and women those who often get the glory and those who lived lives more hidden from history s storytellers It brings to life people places events and ideas and successes and failures This is not a story of England in splendid isolation but a more rounded picture touching on the influences from and on other places and nations for good or bad near and far in geography and time 100 Bitesize Chunks are followed by a recognition of historic themes and some

conclusions and just a glimpse of the possible future history of a nation A commentary on history itself how we know how history works what we think of it and how we care for it or don't care for it this book is an encouragement to study history actively through the evidence we can see and touch and interpret in museums and in its real locations Ideal for anyone returning to history or for an enthusiast
