**Hannah M. Cotton**

## **Oxyrhynchus Papyri Volume 46:**

Material Approaches to Roman Magic Adam Parker, Stuart McKie, 2018-04-30 This second volume in the new TRAC Themes in Roman Archaeology series seeks to push the research agendas of materiality and lived experience further into the study of Roman magic a field that has until recently lacked object focused analysis Building on the pioneering studies in Boschung and Bremmer's 2015 *Materiality of Magic* the editors of the present volume have collected contributions that showcase the value of richly detailed context specific explorations of the magical practices of the Roman world By concentrating primarily on the Imperial period and the western provinces the various contributions demonstrate very clearly the exceptional range of influences and possibilities open to individuals who sought to use magical rituals to affect their lives in these specific contexts something that would have been largely impossible in earlier periods of antiquity Contributions are presented from a range of museum professionals commercial archaeologists university academics and postgraduate students making a compelling case for strengthening lines of communication between these related areas of expertise Ascetics, Society, and the Desert James E. Goehring, 1999-05-01 Through rigorous examination of papyrological documentary sources archaeology and traditional literary sources James Goehring gradually forces a new direction in understanding the evolution of monasticism He ably transforms these sources into a clear narrative thereby infusing the history of Egyptian monasticism with renewed energy **Roman Rule and Jewish Life** Hannah M. Cotton, 2022-03-07 Hannah M Cotton's collected papers focus on questions which have fascinated her for over four decades the concrete relationships between law language administration and everyday life in Judaea and Nabataea in particular and in the Roman world as a whole Many of the papers especially those devoted to the Judean Desert documents of the 2nd century CE have been widely cited Others having appeared in less accessible publications may not have received the attention they deserve On the whole rather than addressing the grand narratives of world or national history they look at the texture of life seeking to provide tentative answers to historical questions and interpretations by paying fine attention to the details of literary and especially documentary evidence Taken together they illuminate fundamental often legal questions concerning daily life and the exercise of Roman rule and administration in the early imperial period and especially their impact on life as it was lived in the province and the period where Roman and Jewish history fatefully intersected The volume includes a complete bibliography of her publications *Synopsis: An Annual Index of Greek Studies, 1993, 3* Andrew D.
