Over The Arabian Gulf:

Seafaring in the Arabian Gulf and Oman Dionisius A. Agius, 2012-12-06 This book is a study of the seafaring communities of the Arabian Gulf and Oman in the past 150 years. It analyses the significance of the dhow and how coastal communities interacted throughout their long tradition of seafaring. In addition to archival material, the work is based on extensive field research in which the voices of seamen were recorded in over 200 interviews. The book provides an integrated study of dhow activity in the area concerned and examines the consciousness of belonging to the wider culture of the Indian ocean as it is expressed in boat building traditions, navigational techniques, crew organisation and port towns. People of the Dhow brings together the different measures of time past the sea, its people and their material culture. The Arabian Gulf and Oman have traditionally shared a common destiny within the Western Indian Ocean. The seasonal monsoonal winds were fundamental to the physical and human unities of the seafaring communities, producing a way of life in harmony with the natural world, a world which was abruptly changed with the discovery of oil. What remains is memories of a seafaring past, a history of traditions and customs recorded here in the recollections of a dying generation and in the rich artistic heritage of the region.

In the Wake of the Dhow Dionisius A. Agius, 2010 The Arabian dhow with its characteristic features is one of the evocative images of the Gulf, the Red Sea and the Indian Ocean. This book features over two hundred interviews with shipwrights and seamen in the Arabian Gulf and Oman. It compares information given firsthand with the literature already written on the dhow and on Arab seafaring.

Coral Reefs and Associated Marine Fauna around the Arabian Peninsula Najeeb M.A. Rasul, Ian C.F. Stewart, 2024-07-15 Coral Reefs and Associated Marine Fauna around the Arabian Peninsula is a unique text that contains studies on a diverse range of topics related to the biology of the Red Sea and Arabian Persian Gulf region. Containing invited and peer-reviewed chapters, this book is a compilation of the works of various experts in their respective fields. The authors delve into the marine fauna around the Arabian Peninsula, including marine reptiles and mammals, coral reefs, fish, invertebrates, algae, and phytoplankton. They also explore the changes resulting from anthropogenic and climate effects. This book will be a helpful resource for researchers in Biology and will also be a valuable reference for anyone interested in the biology of these two warm, semi-isolated seas with their unique environments.

Asian Atmospheric Pollution Ramesh P. Singh, 2021-08-31 Asian Atmospheric Pollution: Sources, Characteristics, and Impacts provides a concise yet comprehensive treatment of all aspects of pollution and air quality monitoring across all of Asia. It focuses on key regions of the world and details a variety of sources, their transport mechanisms, long-term variability, and impacts on climate at local and regional scales. It also discusses the feedback on pollutants on different meteorological parameters like radiative forcing, fog formations, precipitation, cloud characteristics, and more. Drawing upon the expertise of multiple well-known authors from different countries to underline some of these key issues, it includes sections dedicated to treatment of pollutant sources, studying of pollutants and trace gases using satellite station-based observations and models.

transport mechanisms seasonal and inter annual variability and impact on climate health and biosphere in general Asian Atmospheric Pollution Sources Characteristics and Impacts is a useful resource for scientists and students to understand the sources and dynamics of atmospheric pollution as well as their transport from one continent to other continents helping the atmospheric modelling community to model different scenarios of the pollution gauge its short term and long term impacts across regional to global scales and better understand the ramifications of episodic events Covers all of Asia in detail in terms of pollution Focuses not only on local pollution but on long term transport of these pollutants and their impacts on other regions as well as the globe Includes discussion of both particulate matter and greenhouse gases Serves as a single resource on Asian air pollution and Impacts from the most current research across the globe including the US Asia Africa and Europe

Seafaring in the Arabian Gulf and Oman the People of the Dhow Dionisius A. Agius, 2005 **Creating the Arabian Gulf** Paul J. Rich, 2009-08-16 Even whether to call the Gulf Arabian or Persian is an unending argument Regardless of its name the Gulf is one of the most politically important regions of the world Despite its constant presence in the headlines the fact that it was part of the British Indian empire for many years has gone unappreciated The long period of British control and the connections with India are in fact necessary in understanding the contemporary Middle East With more than ten years of experience as a government advisor in Saudi Arabia and Qatar Paul Rich draws on previously closed archives to document the actual heritage of the area and dispel the myths Rich shows that the influences of Britain and India are far deeper than commonly acknowledged and that the sheikhs are actually the creation of the British Raj He explains that they owe their thrones to a small group of British political agents the Heaven Born who created the satraps and then proceeded to rule from behind the scenes by a clever use of stagecraft and ritual that was heavily flavored by their experiences at English public schools and in Masonic lodges In its attempt to make sense of the complexity of Arab sheikhdoms in the Gulf *Creating the Arabian Gulf* is an ideal book for students and scholars interested in Middle East studies and international relations

Oil and Security in the Arabian Gulf Abdel Majid Farid, 2020-09-21 The issue of security in the Gulf has an importance which goes far beyond the regional location of the area It is enough to note that instability in the area may result in the interruption of oil supplies to the rest of the world This book first published in 1981 considers some of the challenges facing the region following recent developments such as the fall of the Shah and the proclamation of the Islamic Republic in Iran the Soviet presence in Afghanistan the formation of an American task force to intervene in the area the failure of the Camp David agreement and the Iran Iraq war

United Arab Emirates Ibrahim Abed, Peter Hellyer, 2001 An authoritative and wide ranging book uncovering the rich heritage of the United Arab Emirates its political renaissance and its modern transformation into one of the most developed nations in the world **The Arab Gulf and the West** B.R. Pridham, 2020-09-23 For many decades the Arab Gulf was considered to be a Western particularly British sphere of influence Much has changed in recent years the states in the region have come to control their own destinies much more and Britain

has been supplanted by the US as the Western country with the greatest interests in the region. However, the picture has been complicated by differences of opinion within the region and by wider international relations issues. This book, first published in 1985, examines the relations between the Arab Gulf and the West in all their ramifications. Considering the question from historical, economic, cultural, and international relations perspectives, it puts forward views both from a Western and a Gulf standpoint. It concludes with a discussion of current trends and likely future developments. **The Legal Status**

of the Arabian Gulf States Husain M. Albaharna, 1968. Study of problems connected with the legal status of Arab country with particular reference to problems arising from their treaty relations and international relations. Covers historical aspects of the protective role of UK in the area, accession to independence, aspects of international law, position within the framework of the UN, boundary disputes and territorial claims, foreign policy, the role of multinational enterprises of the petroleum industry, etc. Bibliography pp 332 to 343. **World Atlas of Seagrasses** Frederick T. Short, 2003. Seagrasses are a vital and widespread but often overlooked coastal marine habitat. This volume provides a global survey of their distribution and conservation status.

Society and State in the Gulf and Arab Peninsula Khaldoun Hasan Al-Naqeeb, 2012-05-09. This set reissues 4 volumes originally published between 1985 and 1991. They examine the historical process of social formation that gave rise to the communal consciousness of the Arab nation and determined its sense of identity. Present detailed analysis of resources in the Arab world including population, employment, oil and water supplies. Discuss dimensions of Afro-Arab co-operation and the future of Afro-Arab relations. Analyse the relations between state and society in the Arab World.

Periplus of the Outer Sea, East and West, and of the Great Islands Therein Marcianus (of Heraclea.), 1927

Lloyd's Calendar, 1904. Water Resources Perspectives: Evaluation, Management and Policy W.W. Wood, A.S.

Alsharhan, 2003-12-09. Many countries in the world have made great efforts to remedy the water shortage by providing financial and technical backing for water desalination, treatment of wastewater and improved management and conservation techniques. Water ministries, universities and research centres have supported scientific research and applied the most recent technologies in search of new and alternative water supplies. Laws have been promulgated, economic and public relation campaigns developed to promote and encourage the practice of efficient water use and the conservation of this scarce commodity. This book covers water resources and management and provides a new vision of water resources management, water conservation and legislations, water law and modern techniques of water resources investigation. **The American**

Universal Cyclopædia, 1882. **Traditional Architecture of the Arabian Gulf** R. Hawker, 2008-06-10. This book chronicles the florescence of architecture in the Arabian Gulf after the expulsion of the Portuguese in the early 1600s. It demonstrates how the power vacuum created by the collapse of Portuguese control over the trade routes in the Indian Ocean encouraged a growth in fortified architecture, especially in Oman, that radiated out to the surrounding region and was then slowly replaced by new patterns in domestic and public architecture and town planning throughout the Gulf as the trade lines

were secured and the individual countries took the first steps towards the formation of today's modern nation states. The book documents the buildings and crafts of this era and analyses them within the framework of the political, economic and social information available through primary sources from the period in a way that is both intelligent and accessible. It considers the settlements as part of a larger connected network of cities, towns and villages and focuses both on how the buildings provided innovative solutions to the demanding climate and yet incorporated new decorative and functional ideas. Topics are extensively and richly illustrated with colored photographs of the buildings as they are now, black and white and color historic photographs from archival and museum collections, line drawings and computer-generated reconstructions. The book is therefore attractive to a number of audiences including those who live in or travel to the Gulf as well as people with an interest in Arab and Islamic design, culture and society, vernacular architecture and post-colonial approaches to colonial history.
