## **Overtapped Oasis:**

**Overtapped Oasis** Marc Reisner,Sarah F. Bates,1990-02-01 Overtapped Oasis analyzes the West s water allocation system from top to bottom and offers dozens of revolutionary proposals for increased efficiency and policy reform Marc Reisner and Sarah Bates argue that the West s underlying problem is not a shortage of water but the inefficient use of it a problem caused by a bewildering tangle of federal subsidy programs restrictive state water codes anachronistic irrigation practices and perhaps most important resistance to reform    Overtapped Oasis Marc Reisner,Sarah F. Bates,1990-02-01 Overtapped Oasis analyzes the West s water allocation system from top to bottom and offers dozens of revolutionary proposals for increased efficiency and policy reform Marc Reisner and Sarah Bates argue that the West s underlying problem is not a shortage of water but the inefficient use of it a problem caused by a bewildering tangle of federal subsidy programs restrictive state water codes anachronistic irrigation practices and perhaps most important resistance to reform    Modern American Environmentalists George A. Cevasco,Richard P. Harmond,2009-06-15 Modern American Environmentalists profiles the lives and contributions of nearly 140 major figures during the twentieth century environmental movement Included are iconic environmentalists such as Rachel Carson E O Wilson Gifford Pinchot and Al Gore and important but less expected names including John Steinbeck and Allen Ginsberg The entries recount how each individual became active in environmental conservation detail his or her significant contributions trace the influence of each on future efforts and discuss the person s legacy The individuals selected for the book displayed either an unparalleled commitment to the conservation preservation restoration and enhancement of the natural environment or made a major contribution to the growth of environmentalism during its first century With a foreword by environmental historian Everett I Mendelsohn a time line of key environmental events a bibliography of groundbreaking works and an index organized by specialization this biographical encyclopedia is a handy and complete guide to the major people involved in the modern American environmental movement

**Forum for Applied Research and Public Policy** ,1993    *Seeing Nature Through Gender* Virginia Scharff,2003 Environmental history has traditionally told the story of Man and Nature Scholars have too frequently overlooked the ways in which their predominantly male subjects have themselves been shaped by gender Seeing Nature through Gender here reintroduces gender as a meaningful category of analysis for environmental history showing how women s actions desires and choices have shaped the world and seeing men as gendered actors as well In thirteen essays that show how gendered ideas have shaped the ways in which people have represented experienced and consumed their world Virginia Scharff and her coauthors explore interactions between gender and environment in history Ranging from colonial borderlands to transnational boundaries from mountaintop to marketplace they focus on historical representations of humans and nature on questions about consumption on environmental politics and on the complex reciprocal relations among human bodies and changing landscapes They also challenge the ecofeminist position by challenging the notion that men and women are

essentially different creatures with biologically different destinies Each article shows how a person or group of people in history have understood nature in gendered terms and acted accordingly often with dire consequences for other people and organisms Here are considerations of the ways we study sexuality among birds of William Byrd s masking sexual encounters in his account of an eighteenth century expedition of how the ecology of fire in a changing built environment has reshaped firefighters own gendered identities Some are playful as in a piece on the evolution of snow bunnies to shred betties Others are dead serious as in a chilling portrait of how endocrine disrupters are reinventing humans animals and water systems from the cellular level out Aiding and adding significantly to the enterprise of environmental history Seeing Nature through Gender bridges gender history and environmental history in unexpected ways to show us how the natural world can remake the gendered patterns we ve engraved on ourselves and on the planet

**Bay Cities and Water Politics** Sarah S. Elkind,1998 Combining insights from urban western and environmental history Elkind examines the ways that people s reactions to their natural surroundings drive both demand for improved public services and political reform She traces public works development in the Gilded Age and Progressive Era to explain how these programs united each city with its suburban neighbors creating new political entities and allowing Boston and Oakland to appropriate rural resources and thus overcome the environmental limits to their continued growth and prosperity She also shows how when the power of regionalism is turned to urban development environmental and social costs are sometimes overlooked

**E ,1991 Selected Water Resources Abstracts ,1991 U.S. Land and Natural Resources Policy** Gary C. Bryner,1998 A comprehensive overview of the policy debates surrounding U S public lands and the natural resources they contain Bryner traces the origin and evolution of policy and the current debate in Congress and within the Clinton administration over public lands and natural resources He also assesses policy options in light of ecological principles and examines the importance of public lands and natural resources in the nation s environmental quality and in the quality of life the environment will provide for future generations This book will be a useful reference for policymakers environmental studies students and anyone concerned with the future of our public lands and natural resources

**Rivers ,1990 The Workbook ,1992 Regionalism, Politics and the Environment** Sarah S. Elkind,1994 Nevada Historical Society Quarterly ,1994 The ABC-CLIO Companion to the Environmental Movement Mark Grossman,1994 This book is a guide to the conservation movement and environmentalism Taking Out the Trash Jennifer Carless,1992-05 Communities and businesses across the country

**Legal Control of Water Resources** Joseph L. Sax,Robert H. Abrams,Barton H. Thompson,Barton H. Thompson (Jr.),1991 **Understanding Environmental Administration and Law** Susan J. Buck,1991-12 More than any other field of public administration environmental administration is defined by its legal content Federal legislation has a direct and immediate impact on state and federal bureaucrats and citizen groups must constantly adjust to changing standards for environmental protection and regulation In Understanding Environmental Administration and Law Susan J Buck examines

the use of environmental law by exploring the policy process through which such law is made the political environment in which it is applied and the statutory and case laws that are critical to working within the regulatory system The book provides an analytic framework for the legal context of environmental administration and familiarizes readers with the development and implementation of the federal regulatory structure First published in 1991 this revised and expanded edition includes new material on the continuing evolution of environmentalism in the United States federalism and bureaucratic decision making within the context of the American legal system citizen suits counter suits and the increasingly restrictive perspective of the federal judiciary toward standing the property rights movement the impact of political changes on policy development Unlike most books that deal with environmental law the focus of this volume is on understanding the law as a managerial tool and fitting it into the overall policy context Anyone involved with the environment from students to citizen activists to mid level managers at the federal state and local level will find it enormously valuable **Coastal Zone** ... ,1991 *Better Trout Habitat* Christopher J. Hunter, Montana Land Reliance (Trust), 1991 Better Trout Habitat explains the physical chemical and biological needs of trout and shows how climate geology vegetation and flowing water all help to create trout habitat **Silent Spring Revisited** Susan Maria Turnquist, 1993
