*Global Trends in Media Education* Tony Lavender, Birgitte Tufte, Dafna Lemish, 2003 Over the last decades, Media Education has gradually obtained an educational status in many countries throughout the world, although few countries have actually incorporated this subject in their formal school curricula. Where Media Education is taught today, it is principally carried out using a relaxed pluralistic and a cross or multidisciplinary approach. This book sets out to explore this new approach to the subject via chapters that are representative of ongoing work by leading Media Education researchers in nine different countries and from all five continents. Media Education is continually evolving and the individual chapters indicate that the passion for the subject is global, while the actual translations of practices and policies are very much local. The book expands the debate about Media Education beyond the traditions and interests of one part of the world to encompass the needs of the rest.
