Global Trend Emotional Intelligence:

Global Trends, Dynamics, and Imperatives for Strategic Development in Business Education in an Age of Disruption Zhuplev, Anatoly, Koepp, Robert, 2021-10-22 Over the past two centuries the world's socio-economic progression has gone through profound paradigm changes unfolding along four major development stages. Higher education has been an important part of this process. The accelerated pace of technological socio-economic and business innovations as well as ongoing fundamental changes in the real world call for progress in pedagogy. While modern universities have adapted in various degrees through information platforms such as Blackboard or Brightspace video conferencing and other technological innovations, they still commonly rely on pedagogical ideas and concepts rooted in a thoroughly pre-modern era rooted in medieval times. *Global Trends, Dynamics, and Imperatives for Strategic Development in Business Education in an Age of Disruption* explores the genesis of higher education and its contemporary structure and profile in major global regions and discusses key trends, dynamics, drivers, and developmental imperatives currently shaping business education. Covering topics such as business education, online education, and strategic development, this book is essential for teachers, managers, trainers, faculty, administrators, policymakers, researchers, academicians, and students involved in studies that include industrial, economic, social, urban, innovation, legal, and policy development.

Emotional Intelligence and Public Relations Weiwu Zhang, 2025-11-03 Emotional intelligence, often referred to as emotional quotient (EQ), has emerged as a critical soft skill in public relations (PR), proven essential for performance, leadership, and fostering collaborative organizational cultures. Despite its importance, EQ remains understudied in PR contexts. This groundbreaking volume presents the first comprehensive collection of cutting-edge research and theoretical and practical insights exploring the pivotal role of EQ across PR practice and education. Leading scholars contribute original research, theoretical frameworks, and case studies examining EQ in various settings. The book covers diverse topics including EQ's importance in PR roles, internal communication, listening, and mindfulness, leadership, intercultural relations, work-life harmony, crisis communication, health communication, organizational listening, social capital, and diversity initiatives. Each chapter provides practical recommendations for implementing EQ principles in daily PR practice and future research directions. This essential resource serves multiple audiences: PR educators seeking to incorporate EQ into their curriculum, researchers exploring the intersection of EQ and communication, and practitioners looking to enhance their professional capabilities. Whether used as a supplementary text for PR theory courses, a foundation for professional development, or a required text for specialized EQ classes, this volume delivers valuable insights into why EQ truly is the new IQ in public relations.
