Models Of Religious Broadcasting:

Models of Religious Broadcasting J. Harold Ellens, 1974 **Models of Religious Broadcasting** J. Harold Ellens,

Challenges of Christian Communication and Broadcasting Dominic Emmanuel, 2016-07-27 The book attempts to establish historically why it became important for Christian Churches in general and the Catholic Church in particular to reconsider their communicative practices. It shows how the Churches tried to change their mode of monological communication to adopt a dialogical one including dialogue with non-Christian religions. The distinctive character of the book lies in showing that such parallel changes in communicative practices were witnessed in philosophical thinking as well as in the field of secular and religious broadcasting.

Religious Broadcasting, 1920-1983 George H. Hill, Lenwood G. Davis, 1984 **The Handbook of Religion and Communication** Yoel Cohen, Paul A. Soukup, 2023-02-22 Provides a contemporary view of the intertwined relationship of communication and religion. The Handbook of Religion and Communication presents a detailed investigation of the complex interaction between media and religion, offering diverse perspectives on how both traditional and new media sources continue to impact religious belief and practice across multiple faiths around the globe. Contributions from leading international scholars address key themes such as the changing role of religious authority in the digital age, the role of media in cultural shifts away from religious institutions, and the ways modern technologies have transformed how religion is communicated and portrayed. Divided into five parts, the Handbook opens with a state-of-the-art overview of the subject's intellectual landscape, introducing the historical background, theoretical foundations, and major academic approaches to communication, media, and religion. Subsequent sections focus on institutional and functional perspectives, theological and cultural approaches, and new approaches in digital technologies. The essays provide insight into a wide range of topics, including religious use of media, religious identity, audience gratification, religious broadcasting, religious content in entertainment, films, and religion news, reporting about religion, race, and gender, the sex-religion matrix, religious crisis, communication, public relations, and advertising, televangelism, pastoral ministry, death and the media, online religion, future directions in religious communication, and more. Explores the increasing role of media in creating religious identity and communicating religious experience. Discusses the development and evolution of the communication practices of various religious bodies. Covers all major media sources, including radio, television, film, press, digital, online content, and social media platforms. Presents key empirical research, real-world case studies, and illustrative examples throughout. Encompasses a variety of perspectives, including individual and institutional actors, academic and theoretical areas, and different forms of communication media. Explores media and religion in Judeo-Christian traditions, Islam, Buddhism, Hinduism, religions of Africa, Atheism, and others. The Handbook of Religion and Communication is an essential resource for scholars, academic researchers, practical theologians, seminarians, mass communication researchers, and undergraduate and graduate students taking courses on media and religion.
