Modern Chess Lessons Eric Tangborn, Kenneth Ray Smith, 1996 *Lessons with a Grandmaster III: Boris Gulko*, 2015-08-07 Imagine you are a club player who has been given the opportunity to talk at length with a famous Grandmaster How would you make the most of this opportunity This is the third book in the highly acclaimed Lessons with a Grandmaster series It bridges the gap between great player and amateur through a series of conversations between teacher the renowned Grandmaster Boris Gulko and student Dr Joel R Sneed a professor of psychology and amateur chess player The lessons are based on Gulko s own battles against fellow Grandmasters In this third volume Gulko and Sneed focus on both strategic and tactical ideas and how to successfully combine the two parts over the board Among the many subjects examined are attack and defense exploiting weak squares fighting for the initiative Sicilian strategy and the bishop pair Learn from the chess games of Boris Gulko Typical questions you would ask a Grandmaster answered Improve your strategic and tactical understanding **Chess Lessons for Beginners** Edward Ernest Cunnington, 1901 *Chess Lessons* Mark Dvoretsky, 2018-05-15 Success is a collection of problems solved I M Pei Architect In this his penultimate work legendary chess instructor Mark Dvoretsky 1947 2016 explores identifying and dealing with problems on the chessboard While working on the games that I have included in this book I have sought to uncover their core ideas which are important for a chessplayer s improvement and demonstrate them as vividly as possible Those may include both approaches to playing out certain typical situations and mastering various positional and tactical ideas as well as improving technical skills and training an ability to search for decisions and to make them on the basis of the precise calculation of variations The last two parts of the book are devoted to the specific forms of training that I routinely use during my lessons analysis of games in the form of solving a string of consecutive tasks and playing out of certain specially selected positions I hope that this book will be of help not only to high ranking players at whom it is primarily aimed but also to every reader who is serious about self improvement and wishes to understand problems that grandmasters and masters face over the board and the ways they solve them what are the reasons for errors they sometimes commit and how to avoid those mistakes Mark Dvoretsky from his Foreword Annual of the University Club University Club (New York, N.Y.), 1914 American Chess Bulletin Hartwig Cassell, Hermann Helms, 1905 **Annual of the University Club [for the Years ...** University club, New York city, 1914
