## **Modern Asian Living:**

*Modern Asian Living* Wongvipa Devahastin Na Ayudhya, Sakul Intakul, 2012-06-26 Featuring hundreds of photographs this Asian design book is a love note to the modern stylish luxury homes and interior spaces of Asia. In recent years Asian design in architecture, interiors and product design has catapulted onto the global stage. Gone are the thatched villas and vernacular furniture of yesteryear. Replacing them are sleek modern spaces decked out with high quality furnishings and furniture, beautiful artworks and state-of-the-art technology. This book showcases a number of brand new properties, be they shops, homes, holiday houses, restaurants, bars or offices, that represent this new wave of Asian talent. Each space in *Modern Asian Living* has been chosen and styled carefully, often with furniture and products from some of the Pacific region's hot manufacturers and suppliers. Work from all the leading architects, interior designers, product designers and artists are showcased and full listings are given at the back of the book.

[Public Theology in an Age of World Christianity](#) P. Chung, 2010-04-26 This book aims to rearticulate and reinterpret a Christian concept of God's mission and evangelization in light of the universal, irregular and transversal horizon of God's narrative as it pertains to the realities of public sphere.

**Tropical Sustainable Architecture** Joo Hwa Bay, Boon Lay Ong, 2007-03-14 The tropical belt, where large areas of South East Asia, India, Africa and parts of both North and South America are located, forms the biggest landmass in the world and has one of the highest numbers of rapidly developing cities. Coincidentally, architecture in these regions shares common problems, the most easily identifiable being the tropical conditions of climate and natural environment. The context for architecture here is fraught with conflicts between tradition and modernization, massive influx of rural poor into urban areas, poorly managed rapid urban development, as well as the cultural and social strain of globalization. Many local and overseas architects, planners and city fathers are interested in the social and environmental dimensions of these areas that contribute towards short term solutions and long term sustainable developments. This book, developed from the first conference of the International Network for Tropical Architecture, supplies a wealth of information from experts worldwide covering the cultural, environmental and technical aspects of thinking, researching and designing for the tropics.

[A Regional Contemporary](#) C. J. W.-L. Wee, 2025-03-18 The first critical account of the enormous upsurge in cultural expression across Asian countries from 1979 to 2008 and the new possibilities it presented for the aesthetic and cultural re-imagining of a unified contemporary Asia. Biennial-style art exhibitions, new discourses in modern and contemporary art, the production and circulation of increasingly debordered popular culture. *A Regional Contemporary* by C. J. W.-L. Wee is an investigative account of the dramatic increase in cultural expression in Asia from 1979 to 2008, with the 1990s as the focal point of this period. The so-called East Asian miracle, Wee argues, projected a fictive but shared contemporary regional identity onto Northeast and Southeast Asia, collectively taken as East Asia. The new cultural explosion was notably enabled by expanded capitalist energies that reached a level critical enough to reposition the region's postcolonial and Cold War era nationalisms and this

book examines the resulting implications A sophisticated and compelling study A Regional Contemporary is the first to examine the conjunction of high and popular culture in the region Moreover Wee reveals how the various cultural formations of this regional contemporary were able to traverse if not overcome uneven national economies the memory of Japanese empire and the geopolitical rifts of post Cold War nationalisms While foregrounding new cultural expression Wee simultaneously examines how novel economic conditions bolstered a more confident questioning of Western modernity's dominance and enhanced the capacity for regional dialogue in the bid to overcome colonial era legacies even as those legacies were being absorbed into the region VH1 VH1 For the designer if space is tight on the back this can be deleted
