**Ideas of Evolution as Related to Revelation and Science** Sir John William Dawson, 1906 **Modern Ideas of Evolution as Related to Revelation and Science** John William Dawson, 2021-03-10 Darwin's theory of evolution generated a storm of controversy within the scientific community in the later nineteenth century, and Sir J William Dawson, a renowned geologist of his time, was one of those who vehemently opposed it. In *Modern Ideas of Evolution as Related to Revelation and Science*, first published in 1890, Dawson maintains that it is religion alone that forms a stable base for all new ideas. He dismisses the theory of evolution as a crude and heretical hypothesis inconsistent with religion and undeserving of acceptance. If adopted as proven truth, he argues, it would lead to unscientific and unspiritual degeneration of the mind. More than a century later, evolution is generally accepted but still not proven, and the debates continue. Dawson's energetic polemic remains a key document for historians of science concerned with the Victorian reception of Darwinism and the rise of evolutionary theory. *Modern Ideas of Evolution as Related to Revelation and Science* Sir John William Dawson, 1890
