provocative reassessment of modern philosophy explores its nonrational dimensions and connection to ancient mysteries Delving beneath the principal discourses of philosophy from Descartes through Kant Bernard Freyberg plumbs the previously concealed dark forces that ignite the inner power of modern thought He contends that reason itself issues from an implicit and unconscious suppression of the nonrational Even the modern philosophical concerns of nature and limits are undergirded by a dark side that dwells in them and makes them possible Freyberg traces these dark sources to the poetry of Hesiod the fragments of Heraclitus and Parmenides and the Platonic dialogues and claims that they rear their heads again in the work of Spinoza Schelling and Nietzsche Freyberg does not set forth a critique of modern philosophy but explores its intrinsic continuity with its ancient roots **Modern Philosophy** Roger Scruton,1994 This study aims to bring the reader up to date with current developments in the whole field of philosophy from the philosophy of logic to aesthetics and explains how to tackle the existing literature

**The Spirit of Modern Philosophy** Josiah Royce,1893 *Modern Philosophy* Guido

De Ruggiero,1921 *Some Turns of Thought in Modern Philosophy: Five Essays* George Santayana,1933-01-01 A good portrait of Locke would require an elaborate background His is not a figure to stand statuesquely in a void the pose might not seem grand enough for bronze or marble Rather he should be painted in the manner of the Dutch masters in a sunny interior scrupulously furnished with all the implements of domestic comfort and philosophic enquiry the Holy Bible open majestically before him and beside it that other revelation the terrestrial globe His hand might be pointing to a microscope set for examining the internal constitution of a beetle but for the moment his eye should be seen wandering through the open window to admire the blessings of thrift and liberty manifest in the people so worthily busy in the market place wrong as many a monkish notion might be that still troubled their poor heads From them his enlarged thoughts would easily pass to the stout carved ships in the river beyond intrepidly setting sail for the Indies or for savage America Yes he too had travelled and not only in thought He knew how many strange nations and false religions lodged in this round earth itself but a speck in the universe There were few ingenious authors that he had not perused or philosophical instruments that he had not as far as possible examined and tested and no man better than he could understand and prize the recent discoveries of the incomparable Mr Newton Nevertheless a certain uneasiness in that spare frame a certain knitting of the brows in that aquiline countenance would suggest that in the midst of their earnest eloquence the philosopher s thoughts might sometimes come to a stand Indeed the visible scene did not exhaust the complexity of his problem for there was also what he called the scene of ideas immaterial and private but often more crowded and pressing than the public scene Locke was the father of modern psychology and the birth of this airy monster this half natural changeling was not altogether easy or fortunate I wish my erudition allowed me to fill in this picture as the subject deserves and to trace home the sources of Locke s opinions and their immense influence Unfortunately I can consider him what is hardly fair only as a pure philosopher for had Locke s mind been more profound it might have been less influential He was in sympathy with the coming age and was able to guide it an

age that confided in easy eloquent reasoning and proposed to be saved in this world and the next with as little philosophy and as little religion as possible Locke played in the eighteenth century very much the part that fell to Kant in the nineteenth. When quarrelled with no less than when embraced his opinions became a point of departure for universal developments. The more we look into the matter the more we are impressed by the patriarchal dignity of Locke's mind. Father of psychology, father of the criticism of knowledge, father of theoretical liberalism, god father at least of the American political system of Voltaire and the Encyclopaedia at home he was the ancestor of that whole school of polite moderate opinion which can unite liberal Christianity with mechanical science and with psychological idealism. He was invincibly rooted in a prudential morality in a rationalised Protestantism in respect for liberty and law above all he was deeply convinced as he puts it that the handsome conveniences of life are better than nasty penury. Locke still speaks or spoke until lately through many a modern mind when this mind was most sincere and two hundred years before Queen Victoria he was a Victorian in essence. A chief element in this modernness of Locke was something that had hardly appeared before in pure philosophy although common in religion I mean the tendency to deny one's own presuppositions not by accident or inadvertently but proudly and with an air of triumph. Presuppositions are imposed on all of us by life itself for instance the presupposition that life is to continue and that it is worth living. Belief is born on the wing and awakes to many tacit commitments. Afterwards in reflection we may wonder at finding these presuppositions on our hands and being ignorant of the natural causes which have imposed them on the animal mind we may be offended at them. Their arbitrary and dogmatic character will tempt us to condemn them and to take for granted that the analysis which undermines them is justified and will prove fruitful. But this critical assurance in its turn seems to rely on a dubious presupposition namely that human opinion must always evolve in a single line dialectically providentially and irresistibly. It is at least conceivable that the opposite should sometimes be the case. Some of the primitive presuppositions of human reason might have been correct and inevitable whilst the tendency to deny them might have sprung from a plausible misunderstanding or the exaggeration of a half truth so that the critical opinion itself after destroying the spontaneous assumptions on which it rested might be incapable of subsisting.
