Modelling Future Telecommunications Systems:

Modelling Future Telecommunications Systems P. Cochrane,David J.T. Heatley,2012-12-06 Telecommunications today is in the midst of far reaching changes due to rapid development of new technologies services and social evolution This is the first book to model the process of change in telecommunications including all of the relevant factors The approach is practical and responsible based on hard facts and tested models It deals with fundamental issues affecting the future development of telecoms and its impact on societies and presents views which some will find radical   IEEE International Conference on Personal Wireless Communications ,1997   **U.S. Government Research & Development Reports** ,1970
