Applied Electromagnetics and Electromagnetic Compatibility Dipak L. Sengupta, Valdis V. Liepa, 2005-11-11
Applied Electromagnetics and Electromagnetic Compatibility deals with Radio Frequency Interference RFI which is the reception of undesired radio signals originating from digital electronics and electronic equipment. With today's rapid development of radio communication, these undesired signals as well as signals due to natural phenomena such as lightning sparking and others are becoming increasingly important in the general area of Electro Magnetic Compatibility. EMC can be defined as the capability of some electronic equipment or system to be operated at desired levels of performance in a given electromagnetic environment without generating EM emissions unacceptable to other systems operating in the vicinity.

Alaskan Radar System, Over the Horizon Backscatter Radar System, Proposed ,1987 **Language in the Liturgy** Barry Spurr, 2025-01-01
Language in the Liturgy is an historically based linguistically focused account of the development of liturgical language in English in the Anglican and Roman Catholic Churches over the past half century. It analyses issues of style and expression in a wide range of texts, setting this analysis within larger contexts of ecclesiastical and societal change since the 1970s. The Book of Common Prayer is taken as the benchmark of classical liturgical composition in English, not only because it was the first liturgy to be composed in the language but also because of the universally acknowledged beauty of it. Professor Spurr makes a detailed comparative and analytical linguistic study of the Prayer Book and the liturgies composed in English in the modern idiom. He argues for a renewal of the renewal by the restoration of an appropriate solemnity and sacredness of linguistic expression as exemplified in the traditional Prayer Book rites. The book also includes chapters on the role of music and of silence in worship. This stimulating study will be of interest to all concerned about the future direction of liturgies in English in the Anglican and Roman Catholic Churches.
