Nomads and Empire Builders Carleton Beals, 1965      **Nomads and Empire Builders** Carleton Beals,      *Nomadic Empires* Gerard Chaliand, 2017-12-02

Nomadic Empires sheds new light on 2 000 years of military history and geopolitics. The Mongol Empire of Genghis Khan and his heirs as is well known was the greatest empire in world history. For 2 000 from the fifth century b c to the fifteenth century a d the steppe areas of Asia from the borders of Manchuria to the Black Sea were a zone of turbulence threatening settled peoples from China to Russia and Hungary including Iran India the Byzantine empire and even Syria. It was a true world stage that was affected by these destructive nomads. This cogent well written volume examines these nomadic people variously called Indo Europeans Turkic peoples or Mongols. They did not belong to a sole nation or language but shared a strategic culture born in the steppes a highly mobile cavalry which did not require sophisticated logistics and an indirect mode of combat based on surprise mobility and harassment. They used bows and arrows and when they were united under the authority of a strong leader were able to become a deadly threat to their sedentary neighbors. Chaliand addresses the subject from four perspectives. First he examines the early nomadic populations of Eurasia and the impact of these nomads and their complex relationships with settled peoples. Then he describes military fronts of the Altaic Nomads detailing events from the fourth century b c through the twelfth century a d from the early Chinese front to the Indo Iranian front the Byzantine front and the Russian front. Next he covers the undertakings of the great nomad conquerors that brought about the Ottoman Empire. And finally he describes what he calls the revenge of the sedentary peoples exploring Russia and China in the aftermath of the Mongols. The volume includes a chronology and an annotated bibliography. Now in paperback this cogent well written volume examines these nomadic people variously called Indo Europeans Turkic peoples or      **The Nomadic Leviathan** Lhamsuren Munkh-Erdene, 2023-05-08. Devised to legitimize the Republic of China's claim over Inner Asia the Sinocentric paradigm stems from the Open Door Policy and Chinese nationalism. Advanced against the conquest theory and rationalized as the pathfinding ecological theory it is an evolutionary materialist scheme that became the vision of history. Exposing the initial agenda of this paradigm and revealing its fundamental contradictions. The Nomadic Leviathan debunks it as a myth. Resurrecting the conquest theory and reinforcing it with the idea of extrahuman transportation this book places pastoralism at the origin of the state and civilization and the Eurasian steppe at the center of human history. The political emerges as the primary and fundamental order defining the social and economic      The Confucian-legalist State Dingxin Zhao, 2015.
