stage when a child has no instruments to face or deal with such troubled waters Certain fears in adulthood overwhelming though irrational to intellect are the outcome of those moments when a child was unable to face reality being at the mercy of oneself impotent thus in danger and without a protecting caregiver In this healing process shared with a psychotherapist in a long and painful revisit of what occurred the unveiling of an emotional world silenced long ago we dismantle paths built with so much struggle When we plough into the past with the experiential model there will be a change in our way of being and an enrichment in our interactions with others The book has a second part dealing with sex abuse in childhood and disruptive relationships
