Loves Burning Flame:

Love's Burning Flame Iris Bancroft, 1980-01-01 *The Burning Flame of Love* Jean Maalouf, 2017-08-17 Nothing is neither fuller nor better in heaven and earth Every authentic love story is in its essence a journey toward God and every time we truly love we unveil the face of God because God is love 1 John 4 16 No wonder Thomas Kempis affirmed that nothing is sweeter than love nothing stronger nothing higher nothing wider nothing more pleasant nothing fuller nor better in heaven and earth because love is born of God and cannot rest but in God above all things But if it is so why in the world do we find ourselves very often dissatisfied with our love life and why do we have so many dysfunctional relationships with our families neighbors and others Why do we seem to love to hate each other and make enemies rather than friends not only with individuals and groups but also with other nations as well What is missing from our earthly love What has happened to love To these questions and to many more Dr Maalouf whose focus is one of gentle revolution in human development as leading critics said when describing his prolific works Is suggesting here a different way of seeing the reality of love Although it is based on psychological sociological philosophical and theological principles this adopted way conveys the message through a poetic contemplative and mystical method in the style of Meister Eckhart and St John of the Cross This is not intended to be a comprehensive study on love but a fresh awakening to the existential deeper and richer level of consciousness of the living love for the love of one another John 13 34 is not just a commodity for social arrangement but the evidence of our divine origin and destiny and the critical condition for our very survival Thus a book like this should be read meditatively the way one listens to a great symphony or perceives a masterpiece in an art museum and comprehensively for it is not just the total sum of its paragraphs as a symphony and a painting are not the total sum of their different notes and colors Then wonder of wonders one will realize that there is nothing more mysterious more magical more life changing than love It is indeed the philosophers stone that converts whatever it touches into a golden reality Then everything will start to make sense for nothing not even all the money in the world can buy the strength and the happiness of a true loving heart *Theological Works: The delights of wisdom pertaining to marriage and love* Emanuel Swedenborg, 1907 **The delights of wisdom concerning conjugal love: after which follow the pleasures of insanity concerning scortatory love, tr. [by J. Cowes].** Emanuel Swedenborg, 1794 **Cross-Cultural Perspectives on the Experience and Expression of Love** Victor Karandashev, 2019-06-05 This ambitious volume integrates findings from various disciplines in a comprehensive description of the modern research on love and provides a systematic review of love experience and expression from cross cultural perspective It explores numerous interdisciplinary topics bringing together research in biological and social sciences to explore love probing the cross cultural similarities and differences in the feelings thoughts and expressions of love The book's scope which includes a review of major theories and key research instruments provides a comprehensive background for any reader interested in developing an enlightened understanding of the cultural diversity in the concepts experience and

expression of love Included among the chapters How do people in different cultures conceptualize love How similar and different are the experiences and expressions of love across cultures What are the cultural factors affecting the experience and expression of love Cross cultural understanding of love as passion joy commitment union respect submission intimacy dependency and more A review of the past and looking into the future of cross cultural love research Critical reading for our global age Cross Cultural Perspectives on the Experience and Expression of Love promotes a thorough understanding of cross cultural similarities and differences in love and in so doing is valuable not only for love scholars emotion researchers and social psychologists but also for practitioners and clinicians working with multicultural couples and families The most striking feature of this book is the broad array of perspectives that is covered Love is portrayed as a universally found emotion with biological underpinnings The text expands from this core incorporating a wide range of manifestations of love passion admiration of and submission to a partner gift giving and benevolence attachment and trust etc Information on each topic comes from a variety of sources cross culturally and interdisciplinary The text is integrative with a focus on informational value of ideas and findings If you take an interest in how love in its broadest sense is experienced and expressed you will find this to be a very rich text Ype H Poortinga Tilburg University The Netherlands Catholic University of Leuven Leuven Belgium In this wide ranging book Victor Karandashev expertly guides us through the dazzling complexity of our concept and experience of love Not only does he show the many different ingredients that make up our conceptions of love in particular cultures such as idealization of the beloved commitment union intimacy friendship and others he draws our attention to the bewildering array of differences between their applications in different cultural contexts or to their presence or absence in a culture In reading the book we also get as a bonus an idea of how an elusive concept such as love can be scientifically studied by a variety of methodologies all to our benefit A masterful accomplishment K vecses Zolt n E tv s Lor nd University Budapest Hungary Long considered a research purview of only a portion of the world s cultures we know today that love is universal albeit with many cultural differences in meaning form and expression Moreover love has a rich history of scholarship across multiple disciplines Within this backdrop Karandashev has compiled a remarkably comprehensive global review of how people experience and express their emotions in love Covering the topic from a truly international and interdisciplinary perspective this book is an indispensable source of knowledge about cultural and cross cultural studies conducted in recent decades and is a must read for anyone interested in the universal and culturally diverse aspects of love David Matsumoto San Francisco State University Director of SFSU s Culture and Emotion Research Laboratory
