**Ludwig Tieck and America** Percy Matenko,2020-05-01 This study explores the question of Tieck's reception in and influence on the American literary scene before 1900 with the additional goal of shedding light on the reception in America of German Romanticism as a whole. Matenko investigates representation of Tieck in American magazines, books and text books. American translations of his work, his relationships with American authors including Poe and Hawthorne, and also includes a list of American books in Tieck's personal library.

Siegfried Mews,2020-05-01 Twenty one distinguished American Germanists pay tribute to F E Coenen previous longtime editor 1952 1968 of UNC Press Studies in Germanic Languages and Literatures series. Their essays reflecting a variety of approaches deal with many major Goethe, Kleist, Doste, H. Ishoff, Keller, Nietzsche, Rilke, Kafka, Hesse, Brecht, Thomas Mann, Musil and some minor figures who have influenced the literary scene after 1800 and add significantly to both scholarship in and interpretation of modern German literature.

*The American Review, and Metropolitan Magazine* ,1843 *McGraw-Hill Encyclopedia of World Drama* McGraw-Hill, inc,1984 Ranging from the earliest drama to the theater of the 1980's this encyclopedia includes coverage of national drama and theater around the world, theater companies and musical comedy. Arrangement of the 1 300 entries is alphabetically by name or subject with nearly 950 of these devoted to individual playwrights and their works.

**Romantic Irony** Frederick Garber,1988-01-01 This is the first collaborative international reading of irony as a major phenomenon in Romantic art and thought. The volume identifies key predecessor moments that excited Romantic authors and the emergence of a distinctly Romantic theory and practice of irony spreading to all literary genres. Not only the influential pioneer German, British and French varieties but also manifestations in northern, eastern and southern parts of Europe as well as in North America are considered. A set of concluding syntheses treat the shaping power of Romantic irony in narrative, modes, music, the fine arts

and theater innovations that will deeply influence Modernism. Thus the cross cultural and interdisciplinary approach elaborated in the twenty chapters of *Romantic Irony* as lead volume in the five volume *Romanticism* series establishes a significant new range for comparative literature studies in dealing with a complex literary movement. **SPECIAL OFFER 30%** discount for a complete set order 5 vols. The *Romanticism* series in the *Comparative History of Literatures in European Languages* is the result of a remarkable international collaboration. The editorial team coordinated the efforts of over 100 experts from more than two dozen countries to produce five independently conceived yet interrelated volumes that show not only how Romanticism developed and spread in its principal European homelands and throughout the New World but also the ways in which the affected literatures in reaction to Romanticism have redefined themselves into Modernism. A glance at the index of each volume quickly reveals the extraordinary richness of the series total contents. *Romantic Irony* sets the broader experimental parameters of comparison by concentrating on the myriad expressions of irony as one of the major impulses in the Romantic philosophical and artistic revolution and by combining cross cultural and interdisciplinary studies with special attention also to literatures in less widely diffused language streams. *Romantic Drama* traces creative innovations that deeply altered the understanding of genre at large and fed popular imagination through vehicles like the opera and laid the foundations for a modernist theater of the absurd. *Romantic Poetry* demonstrates deep patterns and a sharing of crucial themes of the revolutionary age which underlie the lyrical expression that flourished in so many languages and environments. *Nonfictional Romantic Prose* assists us in coping with the vast array of writings from the personal and intimate sphere to modes of public discourse including Romanticism's own self commentary in theoretical statements on the arts society life the sciences and more. Nor are the discursive dimensions of imaginative literature neglected in the closing volume *Romantic Prose Fiction* where the basic Romantic themes and story types the romance novel novella short story and other narrative forms are considered throughout Europe and the New World. This enormous realm is seen not just in terms of Romantic theorizing but in the light of the impact of Romantic ideas and narration on later generations. As an aid to readers the introduction to *Romantic Prose Fiction* explains the relationships among the volumes in the series and carries a listing of their tables of contents in an appendix. No other series exists comparable to these volumes which treat the entirety of Romanticism as a cultural happening across the whole breadth of the Old and New Worlds and thus render a complex picture of European spiritual strivings in the late eighteenth and the nineteenth centuries a heritage still very close to our age.
