Mundane Astrology: The Astrology of Nations and States H. S. Green, Charles E. O. Carter, Raphael, 2005-03 Will there be peace Will there be war Find out with Mundane Astrology Here in one volume are three classic books on the astrology of nations and states by H S Green Raphael and C E O Carter H S Green organizes his book planet by planet He tells what each planet will do in the 12 houses Raphael organizes the topic by house He tells how mundane houses work when planets are in them In addition both authors deal with solar and lunar eclipses and earthquakes Green shows the effects of eclipses in the houses while Raphael describes them by decanate 100 sections of the zodiac Both mention the effects of comets although little about these mysterious bodies is known astrologically Charles Carter writing after WWII discusses why astrologers failed to predict the war and what that means for mundane astrology His plea for better data has largely been met but the need for more study remains All three authors give astrological rulerships for countries and cities These are centuries old and are weighted to England and Europe Carter s rulers are the most up to date These are the essential texts for serious study of mundane astrology About the Authors H S Green was an astrologer associated with Alan Leo s astrological revival back in the first decade of the 20th century His various books are highly regarded all but this one out of print sadly but biographical details are sketchy Raphael was the pen name of one Robert Cross 1850 1923 He was the sixth in a series of astrological writers who used the name Raphael remains the best known of them all He wrote books on virtually all astrological topics His book on mundane astrology dates from 1910 Charles E O Carter 1887 1968 was one of the outstanding British astrologers of the 20th century He succeeded Alan Leo as head of the Astrological Lodge of the Theosophical Society a post he held from 1920 to 1952 He was editor of *Astrology The Astrologer s Quarterly* from 1926 to 1959 Carter s persistent genius reestablished astrology as a serious discipline in England after two centuries of decline He wrote his book on Mundane Astrology in reaction to the failure of astrologers to forecast WWII In 1939 astrologers in London knew there was a full scale war on in China they knew the situation with Germany was tense but they had studied the charts for the year they knew the fuss would blow over And they were wrong Carter set out to discover why his book was the result

Zain,2014-04-27 This book is Course 13 in the 21 Brotherhood of Light Course series by C C Zain on the Hermetic Sciences Astrology Alchemy Tarot Kabbalah and the Occult Mundane astrology is the study of how astrological influences affect nations cities states communities corporations and groups Local and world trends can be studied through the use of mundane cycle charts of the major planets This book is one of the rare technical manuals covering the astrology of world affairs It teaches the student how to construct and interpret mundane cycle charts It shows how to determine the timing of the birth of a corporation or nation state The book covers the cycles of Mars Jupiter Saturn Uranus Neptune and Pluto giving many real world examples of how aspects in the charts are linked to world events The book provides examples of planets transiting through a sign and Major secondary progressed aspects in the birth charts of nations and cities It also discusses Sun cycle charts major conjunctions of the planets moon cycles and eclipses Abundant real world examples of these cycle charts their aspects and the associated events taken directly from the World Almanac show how knowledge of astrological trends enable organizations and nation states to take precautionary actions      *MUNDANE STELLAR ASTROLOGY: The ancient science of Hermes on the secret connections between the stars and their reflections on earthly beings and events* GIACOMO ALBANO,2021-08-25 The techniques of mundane astrology inherited from tradition are not the most suitable for explaining and predicting events as in reality they only capture the last links in the chain of celestial causes that underlie them In fact the primary causes of all events always and only reside in the Eighth Sphere that is in the sky of the constellations and fixed stars In this book the Stellar Astrology techniques are developed and applied to the real prediction of world events but also to natal charts Heaven and the stars that

populate it are living beings The various parts of the starry sky constellations parts of constellations asterisms and single stars are not isolated but communicate with each other and therefore must be conceived as parts of a community similarly to the relations between men who live on this earth Indeed our communities and our earthly bonds are nothing but the reflection and manifestation of these celestial bonds And just as happens between men and between specific groups of men between some of these parts of the sky there are privileged relationships This book explains which are the astronomical and astrological factors that highlight these ties of kinship thus also indicating the existence of similar relations existing between the things of the world linked to those stars It is a real science based on rigorous criteria and in this book it is illustrated by providing the student with a general method that he can then apply to any person thing or event he intends to study in depth It will be seen how the identification of these stellar links is also essential for correctly interpreting a birth chart Only in this way astrology becomes what it should always be that is the sapiential matter par excellence as the only one capable of explaining and demonstrating the true nature and origin of earthly reality     Raphael's Mundane Astrology
