Moving Target

William Stanley Merwin

Moving Target:

The Moving Target Ross Macdonald, 1998-03-03 The first book in Ross Macdonald's acclaimed Lew Archer series introduces the detective who redefined the role of the American private eye and gave the crime novel a psychological depth and moral complexity only hinted at before. Like many Southern California millionaires, Ralph Sampson keeps odd company. There's the sun worshipping holy man whom Sampson once gave his very own mountain, the fading actress with sidelines in astrology, and S. M. Now one of Sampson's friends may have arranged his kidnapping. As Lew Archer follows the clues from the canyon sanctuaries of the megarich to jazz joints where you get beaten up between sets, *The Moving Target* blends sex, greed, and family hatred into an explosively readable crime novel. [Study on Ground Moving Target Indication and Imaging Technique of Airborne SAR](#) Jian Yang, 2017-01-09 Based on a detailed analysis of the signal model of the moving target, this thesis focuses on the theories and applications of ground moving target indicator GMTI and ground moving target imaging GMTIm algorithms in synthetic aperture radar ground moving target indicator SAR GMTI mode wide area surveillance ground moving target indication WAS GMTI mode and frequency modulated continuous wave synthetic aperture radar FMCW SAR systems. The proposed algorithms can not only indicate and image fast moving targets but are also effective in the context of slow moving target processing. The system design scheme combines the mechanical scanning mode and the airborne SAR system while the azimuth moving target indication algorithm employs the additional range walk migration induced by FMCW SAR systems. In addition, the non-ideal errors that deteriorate the performance of GMTIm algorithms in real SAR data processing are discussed and suitable compensation methods are provided. **DDC Retrieval and Indexing Terminology** Defense Documentation Center (U.S.), 1975 **Proceedings**, 2004 **Design Technology of Synthetic Aperture Radar** Jiaguo Lu, 2019-07-01 An authoritative work on Synthetic Aperture Radar system engineering with key focus on high resolution imaging moving target indication and system engineering technology. Synthetic Aperture Radar SAR is a powerful microwave remote sensing technique that is used to create high resolution two or three dimensional representations of objects such as landscapes independent of weather conditions and sunlight illumination. SAR technology is a multidisciplinary field that involves microwave technology, antenna technology, signal processing, and image information processing. The use of SAR technology continues to grow at a rapid pace in a variety of applications such as high resolution wide swath observation, multi-azimuth information acquisition, high temporal information acquisition, 3-D terrain mapping, and image quality improvement. *Design Technology of Synthetic Aperture Radar* provides detailed coverage of the fundamental concepts, theories, technology, and design of SAR systems and sub-systems. Supported by the author's over two decades of research and practice experience in the field, this in-depth volume systematically describes SAR design and presents the latest research developments. Providing examination of all topics relevant to SAR from radar and antenna system design to receiver technology and signal and image information processing, this comprehensive resource provides wide-ranging up to

date examination of all major topics related to SAR science systems and software Includes guidelines to conduct grounding system designs and analysis Offers coverage of all SAR algorithm classes and detailed SAR algorithms suitable for enabling software implementations Surveys SAR and computed imaging literature of the last sixty years Emphasizes high resolution imaging moving target indication and system engineering Design Technology of Synthetic Aperture Radar is indispensable for graduate students majoring in SAR system design microwave antenna signal and information processing as well as engineers and technicians involved in SAR system techniques ASTIA Subject Headings Defense Documentation Center (U.S.),1959
