

Mud Actor

Cecil Ferard Armstrong

Mud Actor:

The Mud Actor Cyrus Cassells, 1982 *COOP 2016: Proceedings of the 12th International Conference on the Design of Cooperative Systems, 23-27 May 2016, Trento, Italy* Antonella De Angeli, Liam Bannon, Patrizia Marti, Silvia Bordin, 2016-09-07 This volume presents the proceedings of the 12th International Conference on the Design of Cooperative Systems COOP 2016 The conference is a venue for multidisciplinary research contributing to the design assessment and analysis of cooperative systems and their integration in organizations public venues and everyday life COOP emerged from the European tradition of Computer Supported Cooperative Work CSCW and Cognitive Ergonomics A collection of 22 papers and 4 workshop overviews are presented reflecting the variety of research activities in the field of the design of cooperative systems with a special emphasis on Making Together This collection offers a broad vision of collective working practices and cooperative design embracing the idea that design requires a deep understanding of collective activities involving both artefacts and social practices within a context The result is a rich and articulated debate that widens the design space towards the exploration of a variety of forms of participation and engagement in collaborative system design Experienced researchers academics designers and practitioners who are interested in collaborative design theory and methods would be interested in the state of the art research and case studies this collection provides **Theatre & War** Nandita Dinesh, 2019-07-05 In Theatre she describes various projects that she has undertaken on the ground she theorizes strategies that might be useful to other practitioner researchers who are involved in similar work In this sequel of sorts Dinesh chooses to return to the same themes of theatre of war But this time she intentionally crafts her notes from afar From somewhere outside the field From somewhere outside the practice And yet a somewhere that is consumed by the field And the practice Through writing that seeks to do through writing that seeks to perform Dinesh use different voices in this book Voices that come from more traditional archival sources which are then re conceptualized as drama Voices that come from sources that occupy the space between archived and lived experience which are then shaped into creative vignettes Voices that come from Dinesh s repertoire her own lived experiences that are then crafted as flash fiction about past present future collaborators By weaving together variously positioned experiences and voices through creative re interpretations Theatre it is also a book that could be performed *Object-Orientation, Abstraction, and Data Structures Using Scala* Mark C. Lewis, Lisa Lacher, 2017-01-06 Praise for the first edition The well written comprehensive book is aiming to become a de facto reference for the language and its features and capabilities The pace is appropriate for beginners programming concepts are introduced progressively through a range of examples and then used as tools for building applications in various domains including sophisticated data structures and algorithms Highly recommended Students of all levels faculty and professionals practitioners D Papamichail University of Miami in CHOICE Magazine Mark Lewis Introduction to the Art of Programming Using Scala was the first textbook to use Scala for introductory CS courses Fully revised and expanded the new edition of

this popular text has been divided into two books Object Orientation Abstraction and Data Structures Using Scala Second Edition is intended to be used as a textbook for a second or third semester course in Computer Science The Scala programming language provides powerful constructs for expressing both object orientation and abstraction This book provides students with these tools of object orientation to help them structure solutions to larger more complex problems and to expand on their knowledge of abstraction so that they can make their code more powerful and flexible The book also illustrates key concepts through the creation of data structures showing how data structures can be written and the strengths and weaknesses of each one Libraries that provide the functionality needed to do real programming are also explored in the text including GUIs multithreading and networking The book is filled with end of chapter projects and exercises and the authors have also posted a number of different supplements on the book website Video lectures for each chapter in the book are also available on YouTube The videos show construction of code from the ground up and this type of live coding is invaluable for learning to program as it allows students into the mind of a more experienced programmer where they can see the thought processes associated with the development of the code About the Authors Mark Lewis is an Associate Professor at Trinity University He teaches a number of different courses spanning from first semester introductory courses to advanced seminars His research interests included simulations and modeling programming languages and numerical modeling of rings around planets with nearby moons Lisa Lacher is an Assistant Professor at the University of Houston Clear Lake with over 25 years of professional software development experience She teaches a number of different courses spanning from first semester introductory courses to graduate level courses Her research interests include Computer Science Education Agile Software Development Human Computer Interaction and Usability Engineering as well as Measurement and Empirical Software Engineering Statistical Register New South Wales. Bureau of Statistics,1910

At the Actor's Boarding House Helen Green,1906 *Statistical Register* ,1902 **Research Theatre, Climate Change, and the Ecocide Project: A Casebook** U. Chaudhuri,S. Enelow,2015-12-05 Theatre is a uniquely powerful site for the kind of thinking called for by the crises of climate change Encompassing academic research theatre work shopping playwriting dramaturgy and theoretical writing this book offers a practical theoretical and critical engagement with the urgent issue of making art in the age of climate change **Letters from an Actor** William Redfield,2024-03-05 The legendary 1964 Broadway run of Hamlet directed by John Gielgud is one of the most famous productions of Shakespeare's most important play Audacious for its time in concept and execution it placed the actors in everyday clothes within an unassuming rehearsal set with the Ghost of Hamlet's father projected as a shadow against the rear wall and voiced by the director himself It was also a runaway critical and financial success breaking the then record for most performances of a Broadway show This was in no small part due to the starring role played by Richard Burton whose romance with Elizabeth Taylor was the object of widespread fascination Present throughout and ever attentive to the backstage drama and towering

egos on display was the actor William Redfield who played Guildenstern During the three months of the play's preparation from rehearsals through out of town tryouts to the gala opening night on Broadway Redfield wrote a series of letters describing the daily happenings and his impressions of them In 1967 they were in 1967 collected into *Letters from an Actor* a brilliant and unusual book that has since become a classic behind the scenes account that remains an indispensable contribution to theatrical history and lore This new edition at last brings Redfield's classic back into print as *The Motive and the Cue* the Sam Mendes directed play about the Gielgud production that is based in part on the book continues its successful run in London's West End

Theatre in Cyberspace Stephen Alan Schrum, 1999 Many theatre educators have begun to use computer technology in a variety of ways whether inside the classroom or by expanding the classroom by using the Internet and the World Wide Web Similarly theatre practitioners are increasing their potential audiences with online technology while attempting to discover how to present theatre in an interactive yet non corporeal way Also fascinating is how educators and practitioners can collaborate creating online performance spaces that can be adapted for teaching and creating online teaching techniques that can be adapted for performance This volume of essays presents information from some of the pioneers in the field of cyberspace theatre who write of their work in both theoretical and practical terms thus creating a kind of Theatre and Its Double for computers and theatre From the Introduction

The Actor's Art John Alexander Hammerton, 1897

Actors George Iles, 1908

Into a Light Both Brilliant and Unseen Malin Pereira, 2010-12

Malin Pereira's collection of eight interviews with leading contemporary African American poets offers an in depth look at the cultural and aesthetic perspectives of the post Black Arts Movement generation This volume includes unpublished interviews Pereira conducted with Wanda Coleman Yusef Komunyakaa Thylas Moss Harryette Mullen Cornelius Eady and Elizabeth Alexander as well as conversations with Rita Dove and Cyrus Cassells previously in print Largely published since 1980 each of these poets has at least four books Their influence on new generations of poets has been wide reaching The work of this group says Pereira is a departure from the previous generation's proscriptive manifestos in favor of more inclusive voices perspectives and techniques Although these poets reject a rigid adherence to a specific black aesthetic their work just as effectively probes racism stereotyping and racial politics Unlike Amiri Baraka's claim in *Home* that he becomes blacker and blacker positioning race as a defining essence these poets imagine a plurality of ideas about the relationship between blackness and black poetry They question the idea of an established literary canon defining black literature For these poets Pereira says the idea of home is found both in black poetry circles and in the wider transnational community of literature
