Taking a task-based approach, you'll learn how to build features that use powerful AI features to identify images, make predictions, generate content, recommend things, and more. AI is increasingly essential for every developer, and you don't need to be a data scientist or mathematician to take advantage of it in your apps. Explore Swift-based AI and ML techniques for building applications. Learn where and how AI-driven features make sense. Inspect tools such as Apple's Python-powered Turi Create and Google's Swift for TensorFlow to train and build models. I. Fundamentals and Tools: Learn AI basics, our task-based approach, and discover how to build or find a dataset. II. Task-Based AI: Build vision, audio, text, motion, and augmentation-related features; learn how to convert preexisting models. III. Beyond: Discover the theory behind task-based practice, explore AI and ML methods, and learn how you can build it all from scratch if you want to.

Artificial Intelligence for Strategic Communication Karen E. Sutherland, 2025-02-17 In an era where AI is revolutionising every aspect of communication, this groundbreaking research monograph provides an essential roadmap for navigating the intersection of artificial intelligence and strategic communication. Drawing on extensive primary research, including interviews with 41 experts and surveys of 400 professionals across three continents and eight countries, this book provides insights from relevant scholars, communication practitioners, and AI tool developers. This comprehensive guide combines scholarly rigour with practical application, presenting a data-informed Model for Practice that helps to withstand the constant evolution of AI technology. Each chapter delivers research-informed, actionable tools relating to the multifaceted field of strategic communication, including ethical practice, strategy development, content creation, evaluation, and continuous improvement. Bridging the gap between theoretical understanding and practical implementation, AI for Strategic Communication is an invaluable resource for strategic communication scholars, students, and practitioners, essential for advancing careers in the age of AI. This work emerged from the need for a comprehensive source combining scholarly, practitioner, and AI developer perspectives on strategic communication from around the globe.
