The Monastic Discourses Theoleptos (Metropolitan of Philadelphia),1992 *Learning as Shared Practice in Monastic Communities, 1070-1180* Micol Long,2021-10-11 In this study Micol Long looks at Latin letters written in Western Europe between 1070 and 1180 to reconstruct how monks and nuns learned from each other in a continuous informal and reciprocal way during their daily communal life The book challenges the common understanding of education as the transmission of knowledge via a hierarchical master disciple learning model and shows how knowledge was also shared exchanged jointly processed and developed Long presents a new and more complicated picture of reciprocal knowledge exchanges which could be horizontal and bottom up as well as vertical and where the same individuals could assume different educational roles depending on the specific circumstances and on the learning contents See inside the book **The Oxford Handbook of**

Christian Monasticism Bernice M. Kaczynski,2020-09-29 The Handbook takes as its subject the complex phenomenon of Christian monasticism It addresses for the first time in one volume the multiple strands of Christian monastic practice Forty four essays consider historical and thematic aspects of the Catholic Eastern Orthodox Oriental Orthodox Protestant and Anglican traditions as well as contemporary new monasticism The essays in the book span a period of nearly two thousand years from late ancient times through the medieval and early modern eras on to the present day Taken together they offer not a narrative survey but rather a map of the vast terrain The intention of the Handbook is to provide a balance of some essential historical coverage with a representative sample of current thinking on monasticism It presents the work of both academic and monastic authors and the essays are best understood as a series of loosely linked episodes forming a long chain of enquiry and allowing for various points of view The authors are a diverse and international group who bring a wide range of critical perspectives to bear on pertinent themes and issues They indicate developing trends in their areas of specialisation The individual contributions and the volume as a whole set out an agenda for the future direction of monastic studies In today s world where there is increasing interest in all world monasticisms where scholars are adopting more capacious global approaches to their investigations and where monks and nuns are casting a fresh eye on their ancient traditions this publication is especially timely **Ecclesiastical Discourses** William Bernard Ullathorne,1876 **Ascetic**

Discourses Abba Isaiah Of Scetis,John Chrysavgis,Pachomios (Robert) Penkett,2009-04-01 Written in the fifth century during one of the most formative periods of Christian monasticism in Egypt and Palestine The Ascetic Discourses show a strong influence of the Scripture both Old and New and of Early monastic writers Abba Isaiah has set forth a practical guide for monks ever aware of the challenges that interpersonal relationships present within monastic communities

Ecclesiastical Discourses Delivered on Special Occasions William Bernard ULLATHORNE (R.C. Bishop of Birmingham.),1876 **Gregory Palamas and the Making of Palamism in the Modern Age** Norman Russell,2019 This study presents a new perspective on an important fourteenth century Greek theologian Gregory Palamas **Mount Athos**,

the Sacred Bridge Dimitri Conomos,Dimitri E. Conomos,Graham Speake,2005 Most of the papers included in this volume were first presented at a conference convened by the Friends of Mount Athos at Madingley Hall Cambridge in 2003 Mount Athos is the principal surviving centre of Orthodox monasticism and the spiritual heart of the Orthodox world The aims of the conference were to draw attention to the historic importance the spirituality and the religious legacy of the Holy Mountain and to shed light on the contribution made by Athonite monasticism not only to worldwide Orthodoxy but also to Christianity at large Many of the papers focus on particular individuals who from the fourteenth century to the twentieth have exemplified the spiritual traditions of Athos and whose memory as spiritual fathers confessors and ascetics continues to inspire their successors today

[The Resounding Soul](#) Samuel Kimbriel,Eric Austin Lee,2016-09-29 It is surely not coincidental that the term soul should mean not only the centre of a creature s life and consciousness but also a thing or action characterised by intense vivacity that bike s got soul It also seems far from coincidental that the same contemporary academic discussions that have largely cast aside the language of soul in their quest to define the character of human mental life should themselves be so bloodless or so lacking in soul The Resounding Soul arises from the opposite premise that the task of understanding human nature is bound up with the more critical task of learning to be fully human The papers collected here are derived from a conference in Oxford sponsored by the Centre of Theology and Philosophy and explore the often surprising landscape that emerges when human consciousness is approached from this angle Drawing upon literary philosophical theological historical and musical modes of analysis these essays remind the reader of the power of the ancient language of soul over against contemporary impulses to reduce fragment and overly determine human selfhood
