,1921 **National Glass Budget** ,1913 Bureau Men, Settlement Women Camilla Stivers,2000 Although the two intertwined at first the contributions of these settlement women to the development of the administrative state have been largely lost as the new field of public administration evolved from the research bureaus and diverged from social work Camilla Stivers now shows how public administration came to be dominated not just by science and business but also by masculinity calling into question much that is taken for granted about the profession and creating an alternative vision of public service Women's Rights in Democratizing States Denise M. Walsh,2010-11-15 This study offers an explanation for why advances in women s rights rarely occur in democratizing states Drawing on deliberative theory Denise Walsh argues that the leading institutions in the public sphere are highly gendered meaning women s ability to shape the content of public debate and put pressure on the state to advance their rights is limited She tests this claim by measuring the openness and inclusiveness of debate conditions in the public sphere during select time periods in Poland Chile and South Africa Through a series of structured focused comparisons the book confirms the importance of just debate for securing gender justice The comparisons also reveal that counter publics in the leading institutions in the public sphere are crucial for expanding debate conditions The book concludes with an analysis of counter publics and suggests an active role for the state in the public sphere *Report Commonwealth Shipping Committee*,1918 **Home Mission Monthly** ,1914 *National Municipal Review* ,1921 **The Interior** ,1919 Issues for Jan 12 1888 Jan 1889 include monthly Magazine supplement *Woman's Work* ,1920 **Woman's Journal** ,1920 *Missions* Howard Benjamin Grose,1924 **Interior** ,1919 **Lutheran Woman's Work** ,1929 Invisible Seasons Kelly Belanger,2017-01-03 In 1979 a group of women athletes at Michigan State University their civil rights attorney the institution s Title IX coordinator and a close circle of college students used the law to confront a powerful institution their own university By the mid 1970s opposition from the NCAA had made intercollegiate athletics the most controversial part of Title IX the 1972 federal law prohibiting discrimination in all federally funded education programs and activities At the same time some of the most motivated highly skilled women athletes in colleges and universities could no longer tolerate the long standing differences between men s and women s separate but obviously unequal sports programs In *Invisible Seasons* Belanger recalls the remarkable story of how the MSU women athletes helped change the landscape of higher education athletics They learned the hard way that even groundbreaking civil rights laws are not self executing This behind the scenes look at a university sports program challenges us all to think about what it really means to put equality into practice especially in the money driven world of college sports *Women and Missions* Lucia P. Towne,1934
