**Walter Browne, Fredrick Arnold Austin**

## **Opera On Stage:**

Opera on Stage Lorenzo Bianconi, Giorgio Pestelli, 2002-07 The History of Italian Opera marks the first time a team of expert scholars has worked together to investigate the Italian operatic tradition in its entirety rather than limiting its focus to individual eras or major composers and their masterworks. Including both musicologists and historians of other arts the contributors approach opera not only as a distinctive musical genre but also as a form of extravagant theater and a complex social phenomenon resulting in the sort of panoramic view critical to a deep and fruitful understanding of the art. Opera on Stage the second book of this multi volume work to be published in English in an expanded and updated version focuses on staging and viewing Italian opera from the court spectacles of the late sixteenth century to modern day commercial productions. Mercedes Viale Ferrero describes the history of theater and stage design detailing the evolution of the art well into the twentieth century. Gerardo Guccini does the same for stage and opera direction and the development of the director's role as an autonomous creative force. Kathleen Kuzmick Hansell discusses the interrelationships between theatrical ballet and Italian opera from the age of Venetian opera to the early twentieth century. The visual emphasis of all three contributions is supplemented by over one hundred illustrations and because much of this material on the more spectacular visual aspects of Italian opera has never before appeared in English Opera on Stage will be welcomed by scholars and opera enthusiasts alike.

*The Opera Stage of Sarah Caldwell* Kristina Bendikas, 2020-06-01 Sarah Caldwell the leader of the Opera Company of Boston from 1958-1990 was a groundbreaking and idiosyncratic woman who established her own career as a conductor and stage director in an environment resistant to change. This book investigates her choices as an opera director, her influences, her philosophies and her methods and situates her work within the history of opera in America. Though she is remembered primarily as a conductor, her passion and her greater influence on American opera was through stage directing.

With a repertoire that included groundbreaking interpretations of works such as Nono's *Intolleranza* 1960 Prokofiev's *War and Peace* and Bernstein's *Mass* Caldwell continually pushed her own artistic limits, provoking critics, intriguing audiences, and challenging the status quo of opera production. Her passion for opera, her creative use of new technology, and her influence in bringing opera to all sectors of American society culminated in 1997 when she was awarded the National Medal of Arts for her work as a pioneering woman in the American musical landscape and a tireless and innovative arts entrepreneur.

**The Turk on the Opera Stage** Christoph Yew, 2010 Thesis M.A. from the year 2009 in the subject Musicology Miscellaneous grade 2.0 University of Osnabrück Musikwissenschaft language English abstract

This thesis is about the presentation of the Turks in operas of the Western European nations. I will have a look at which different roles were used to describe the Turks. In the sense of this paper, the term 'Turk' does not restrict its perspective to the area of the modern Republic of Turkey. As for example Preibisch 1908 p.13 notes during the 18th century composers did not distinguish between, for example, Persia and Turkey. Pahlen 1980 p.12 even suggests that the whole Arabian community was regarded as Turkish. Moreover, except other Arabian countries, sometimes even China and India were regarded as Turkey. Whaples 1998 p.4 To be precise, this inaccuracy can be applied to a lot of other countries that were part of the Ottoman Empire like Egypt, Algeria, and so on. However, although some of the operas that will be discussed in this paper do not play in Turkey or contain Turkish characters but are placed in neighboring countries of the Ottoman Empire or contain characters from these countries, these works will also be discussed because from the perspective of our ancestors, they all display Turkish elements. The definition of 'Turkish' that will be used in this paper is therefore similar to that used by Griffel 1975 p.85ff and is based on a rather dynamic concept. This means when analyzing an opera concerning its Turkishness, the common perspective of the time has to be kept in mind. Apart from that, I will analyze how the typical characters changed over the course of time, keeping in mind the historical background. This is achieved by comparing similar characters from different operas with each other. As we will see, basically, the timeline can be separated into three different parts. In the baroque period, the Turks were generally viewable in heroic roles which fitted to the concept of the

**Who's who on the Stage ...**, 1908 Screening the Operatic Stage Christopher

Morris, 2024-03-29. From the early days of radio broadcast to today's recorded simulcasts and live online productions, opera houses have embraced technology as a way to reach new audiences. But how do these new forms of remediated opera extend, amplify, or undermine production values and what does the audience gain or lose in the process? In *Screening the Operatic Stage*, Christopher Morris critically examines the cultural implications of opera's engagement with screen media.

Foregrounding a playful exchange and self-awareness between stage and screen, *Screening the Operatic Stage* analyzes how opera sees itself on video. Morris uses the conceptual tools of media theory to understand the historical and contemporary screen cultures that have transmitted the opera house into living rooms, onto desktops and portable devices, and across networks of movie theaters. These screen cultures reveal how inherently technological opera is as a medium, begging the

question of whether it can be understood independently of technology Ultimately Screening the Operatic Stage shows how the technologies of televisual representation employed in opera reinforce its audience's expectations for the genre
