## **Operation Splinter Factor:**

**Operation Splinter Factor** Stewart Steven,1974    [Killing Hope](#) William Blum,2003-07-31 Is the United States a force for democracy From China in the 1940s to Guatemala today William Blum presents a comprehensive study of American covert and overt interference by one means or another in the internal affairs of other countries Each chapter of the book covers a year in which the author takes one particular country case and tells the story and each case throws light on particular US tactics of intervention    [A Certain Arrogance](#) George Michael Evica,2011-02-01 Providing the first global cultural context for the assassination of John F Kennedy this investigation into how United States intelligence agencies and other entities manipulated liberal religious groups and educational institutions for ideological political and economic gain during the Cold War exposes numerous previously misunderstood political operations Including assassinations these projects include those facilitated by Allen Dulles John Foster Dulles the U S State Department the Office of Strategic Services and its successor the CIA and other individuals and groups Focusing on the manipulations of key individuals in the American Unitarian Association the Unitarian Service Committee and the Unitarian supported Albert Schweitzer College by covert American interests during the Cold War this expos asserts that an unwitting Lee Harvey Oswald an asset and pawn of American intelligence was the ideal scapegoat in a tragically successful conspiracy to murder President Kennedy

**Imperialism and Expansionism in American History** Chris J. Magoc,David Bernstein,2015-12-14 This four volume encyclopedia chronicles the historical roots of the United States current military dominance documenting its growth from continental expansionism to hemispheric hegemony to global empire This groundbreaking four volume encyclopedia offers sweeping coverage of a subject central to American history and of urgent importance today as the nation wrestles with a global imperial posture and the long term viability of the largest military establishment in human history The work features more than 650 entries encompassing the full scope of American expansionism and imperialism from the colonial era through the 21st century War on Terror Readers will learn about U S Native American conflicts 19th century land laws early forays overseas for example the opening of Japan and America s imperial conflicts in Cuba and the Philippines U S interests in Latin America are explored as are the often forgotten ambitions that lay behind the nation s involvement in the World Wars The work also offers extensive coverage of the Cold War and today s ongoing conflicts in Iraq Afghanistan Africa and the Middle East as they relate to U S national interests Notable individuals including American statesmen military commanders influential public figures and anti imperialists are covered as well The inclusion of cultural elements of American expansionism and imperialism for example Hollywood films and protest music helps distinguish this set from other more limited works    [Cold War Counterfeit Spies](#) Nigel West,2016-10-14 The Cold War with its air of mutual fear and distrust and the shadowy world of spies and secret agents gave publishers the chance to produce countless stories of espionage treachery and deception What Nigel West has discovered is that the most egregious deceptions were in fact the stories

themselves In this remarkable investigation into the claims of many who portrayed themselves as key players in clandestine operations the author has exposed a catalogue of misrepresentations and falsehoods Did Greville Wynne really exfiltrate a GRU defector from Odessa Was the frogman Buster Crabb abducted during a mission in Portsmouth Harbour Did the KGB run a close guarded training facility as described by J Bernard Hutton in School for Spies which was modelled on a typical town in the American mid west so agents could be acclimatised to a non Soviet environment With the help of witnesses with first hand experience and recently declassified documents Nigel West answers these and other fascinating questions from a time when secrecy and suspicion allowed the truth to be concealed    **Conspiracy Encyclopedia** Thom Burnett,2006

Conspiracies are everywhere they are the lifeblood of politics business and our daily lives this truly international and all embracing encyclopedia explains the details of the world s major popular conspiracies listing them chronologically under subject matter and cross referencing them continually because so many conspiracy theories interact on some level

Conspiracies are often international in their sweep and their impact the brutal stabbing of Julius Caesar the conspiracy which has defined political assassinations ever since plunged the Roman Empire into civil war which then engulfed much of the known western world More recently the Cambridge spies Philby Blunt MacLean and Burgess helped Russia throughout WWII and then re defined the Cold War afterwards Philby s defection casting a 30 year shadow over CIA Anglo American relations though conspiracies define our everyday lives there is no body of serious academic research to understand their role nature or defining characteristics Most historians prefer to adhere to the cock up theory of history in which everything happens by accident or incompetence Although this view is favoured by academics and historians it is rejected by a large part of the general public who prefer the evidence of their own lives However they consume their media what they see is a mesh of conspiracies that define the texture of their everyday lives often for the worst Most people believe that there is a grain of truth in most theories about conspiracies this book is for them    *Studies in Intelligence* ,2014    **Klaus Fuchs, Atom Spy**
