Operation Shylock A Confession:

Operation Shylock Philip Roth, 1994-03-15 WINNER OF THE PEN FAULKNER AWARD From the Pulitzer Prize winning author of *American Pastoral* a fiendishly imaginative book that features Israeli intelligence agents Palestinian exiles an accused war criminal and an enticing charter member of an organization called Anti Semites Anonymous One of Roth's grand inventions He is a comic genius *The New York Review of Books* In this book which may or may not be fiction Philip Roth meets a man who may or may not be Philip Roth Because someone with that name has been touring Israel promoting a bizarre reverse exodus of the Jews Roth is intent on stopping him even if that means impersonating his own impersonator With excruciating suspense unfettered philosophical speculation and a wild cast of characters *Operation Shylock* barrels across the frontier between fact and fiction seriousness and high comedy history and nightmare **Operation Shylock**

Philip Roth, 2000 *Operation Shylock* Philip Roth, 1994-03 In this fiendishly imaginative dizzyingly paced bestseller Philip Roth meets a man who may or may not be Philip Roth Someone with that name has been touring the State of Israel promoting a bizarre exodus in reverse and it is up to Roth to stop him even if that means impersonating his impersonator

Turning Up the Flame Jay L. Halio, Ben Siegel, 2005 The time would appear ripe then to take a closer look at Roth's more recent or later fiction That is the intent of this gathering of critical essays This is the only essay collection devoted primarily to Roth's fiction of the last two decades It includes fourteen essays written by some of the leading Roth specialists in this country and abroad **BOOK JACKET** *States of Trial* Ann Basu, 2016-05-19 This study of five towering Philip Roth novels *Operation Shylock* the *American Pastoral* trilogy and *The Plot Against America* explores his vision of a turbulent post war America personified in trial racked Jewish American men These works collectively register the impact of post 1945 upheavals upon the nation and American trial based myths about wholesomeness and regeneration Roth shows how the stories of old which moulded American self making have produced disorderly and disruptive counter stories playing themselves out in Jewish men marked by spots and stains where their constitutional integrity has been infringed Roth probes the nation's own constitutional testing points as he shatters the identities of characters such as fallen ace athlete Swede Levov and disgraced academic Coleman Silk His books seek to strip away America's false innocence demanding that historical accountability should replace myths of new beginnings Creating arenas of trial for his American men where national discourses and narratives cross and clash Roth's novels reveal that a culture equals its debates and allow us to see Americans and America as ongoing experiments always being tested **A History of Autofiction** Alexandra Effe, 2025-10-02 Mapping the largely

neglected history of autofictional literature and describing developments against socio historical changes cultural trends and philosophical psychological discussions around self and mind this book both explores and historicizes autofiction's contemporary boom Beginning with the genre's emergence in 18th century England against changes in publishing culture and author concept and then tracing forms and functions of autofictional literature up to the contemporary moment *A History*

of Autofiction highlights why select narrative strategies are abandoned transformed or repurposed which forms affordances and effects of autofictional modes are persistent and which were particular to a given period With focus on salient authors and texts from anglophone autofiction around the world and shining spotlights on insightful socio historical and biographical contexts Alexandra Effe foregrounds autofictional elements of works not previously considered for these dimensions and offers fresh perspectives on a range of canonical autofictional texts interdisciplinary in approach the book sheds light on autofictional phenomena through research in neuroscience psychology and philosophy of mind while demonstrating that autofictional literature holds insights for cognitive science Developing a cognitive holistic approach to the triad of author text and reader the book allows for a novel and more encompassing understanding of an important current cultural trend and of its diachronic development
