How to Be a Good Leader Terry Cochran, 2014-11-13 As the human race has evolved it has been socially dependent on certain members deemed leaders of

the group These particular people always possess characteristics that a group of people could rally around in order to reach their goals Even in the animal kingdom wild animals will gather around a dominant animal to lead them For example a pride of lions has one king lion that leads the pack and ensures every lion is properly fed and protected Because the male lion will fight to the death for the top spot this ensures the king is the strongest and therefore the most able to protect and hunt food for his pride or group Of course in today s civilized world we don t exactly have to fight to the death to lead a group of people But in a manner of speaking any potential leader does have to fight or compete to obtain a leadership position Instead of proving strength and power the candidate will have to display how and why they re the most suitable for the position Instead of physically lunging at an opponent the candidate will constantly have to demonstrate professional motivational and social skills a cut above the rest This book will help you to develop all the attributes that define a great leader and will help you discover how to use those qualities to bring your career and personal life to new heights **Leadership 3.0** Nigel
