**Margaret Mead** Joan Mark,1999    **Margaret Mead** Joan T. Mark,1999 The American anthropologist Margaret Mead 1901 1978 was barely 24 years old when she left New York to study the natives of Samoa New Guinea and other remote Pacific islands Anthropological research to her was not a dull academic discipline but an adventure in which every little detail from Balinese ritual dances to Polynesian tattooing held enormous fascination Her 1928 book Coming of Age in Samoa made her both famous and controversial She boldly challenged the most deeply ingrained principles of the Western way of life family structure education and child rearing When she died in 1978 a Pacific tribe she befriended held a five day ceremony in her honor normally reserved for their greatest chiefs Joan Mark guides us through the most exciting anthropological discoveries of the 20th century while following Margaret Meads many triumphs around the globe in quick paced engrossing prose that reads like an adventure story Oxford Portraits in Science is an ongoing series of scientific biographies Written by top scholars and writers each biography examines the personality of its subject as well as the thought process leading to his or her discoveries These illustrated biographies combine accessible technical information with compelling personal stories to portray the scientists whose work has shaped our understanding of the natural world    **Coming of Age in America** Sarah Elizabeth Stevens,2004    Coming of Age in American Anthropology Malopa'upo Isaia,1999 This is the book and a must read of the century It's anthropological history in the re making The American Anthropological best seller the Chief Malopa upo Isaia a descendant of the Tuimanu a king of Manu a the very people in Margaret Mead's book has now raised some very serious traditional and legal issues in relation to Margaret Mead's book Columbia University's role and the American Anthropological Association's professional role In his book Coming of age in American Anthropology the Chief is now ordering the removal withdrawal and the disassociation of every material by Margaret Mead on his cultural intellectual property He has also outlined several legal issues which will have serious ramifications globally on any academic who undertakes any cultural fieldwork on someone else's cultural intellectual property The Coming of age in American Anthropology may well opens the floodgate to civil lawsuits from the two Samoan Governments for billions of dollars in damages to the business community the Tourism Industry of Samoa and from the descendants of the King of Manu a It is definitely the case of the century and a must read for all students of anthropology psychology sociology and law Chief Malopa upo Isaia is a name to watch for as his work will without a doubt change the face of American Anthropology forever

**Anthropologists and the Rediscovery of America, 1886-1965** John S. Gilkeson,2010-09-20 This book examines the intersection of cultural anthropology and American cultural nationalism from 1886 when Franz Boas left Germany for the United States until 1965 when the National Endowment for the Humanities was established Five chapters trace the development within academic anthropology of the concepts of culture social class national character value and civilization and their dissemination to non anthropologists As Americans came to think of culture anthropologically as a complex whole

far broader and more inclusive than Matthew Arnold's the best which has been thought and said so too did they come to see American communities as stratified into social classes distinguished by their subcultures to attribute the making of the American character to socialization rather than birth to locate the distinctiveness of American culture in its unconscious canons of choice and to view American culture and civilization in a global perspective *Female Adolescence in American Scientific Thought, 1830-1930* Crista DeLuzio, 2007-09-23 In this groundbreaking study Crista DeLuzio asks how scientific experts conceptualized female adolescence in the nineteenth and early twentieth centuries Revisiting figures like G Stanley Hall and Margaret Mead and casting her net across the disciplines of biology psychology and anthropology DeLuzio examines the process by which youthful femininity in America became a contested cultural category Challenging accepted views that professionals invented adolescence during this period to understand the typical experiences of white middle class boys

DeLuzio shows how early attempts to reconcile that conceptual category with femininity not only shaped the social science of young women but also forced child development experts and others to reconsider the idea of adolescence itself DeLuzio's provocative work permits a fuller understanding of how adolescence emerged as a crisis in female development and offers insight into why female adolescence remains a social and cultural preoccupation even today **Margaret Mead** Joan

Gordan, 2015-06-03 No detailed description available for Margaret Mead **And Keep Your Powder Dry** Margaret Mead, 2000 Margaret Mead wrote this comprehensive sketch of the culture of the United States the first since de Tocqueville in 1942 at the beginning of the Second World War when Americans were confronted by foreign powers from both Europe and Asia in a particularly challenging manner Mead's work became an instant classic It was required reading for

anthropology students for nearly two decades and was widely translated It was revised and expanded in 1965 for a second generation of readers Among the more controversial conclusions of her analysis are the denial of class as a motivating force in American culture and her contention that culture is the primary determinant for individual character formation Her process remains lucid vivid and arresting As a classic study of a complex western society it remains a monument to anthropological analysis **Margaret Mead** Nancy C. Lutkehaus, 2010-10-03 Using photographs films television appearances and materials from newspapers magazines and scholarly journals this text explores the ways in which Margaret Mead

became an American cultural heroine **Coming of Age in Samoa** Margaret Mead, 1928 Margaret Mead accomplished this remarkable feat not once but several times beginning with Coming of Age in Samoa It details her historic journey to American Samoa taken where she was just twenty three where she did her first fieldwork Here for the first time she presented to the public the idea that the individual experience of developmental stages could be shaped by cultural demands and expectations Adolescence she wrote might be more or less stormy and sexual development more or less problematic in different cultures The civilized world she taught us had much to learn from the primitive Now this groundbreaking

beautifully written work as been reissued for the centennial of her birth featuring introductions by Mary Pipher and by Mead

s daughter Mary Catherine Bateson     *Exotics at Home* Micaela di Leonardo,2000-03-16 What is the exotic after all In this study Micaela di Leonardo reveals the face of power within the mask of cultural difference Focusing on the intimate and shifting relations between popular portrayals of exotic Others and the practice of anthropology that profession assumed to be America s Guardian of the Offbeat she casts new light on gender race and the public sphere in America s past and present Chicago s 1893 Columbian World Exposition and today s college town ethnic boutiques frame di Leonardo s century long analysis     *Women's Rights and Human Rights* P. Grimshaw,K. Holmes,M. Lake,2001-03-20 This international collection of historical work explores the breadth and creativity of women s struggles for human rights citizenship and social justice across the world It brings together twenty contributions by scholars in women s history whose work reflects the global reach of the International Federation for Research in Women s History In addition to presenting studies by well known scholars in the United States and Europe the book is distinctive in also bringing the work of scholars from regions such as South and East Asia and the Pacific to the attention of an international audience     **On Creating a Usable Culture** Maureen A. Molloy,2008-02-20 Margaret Mead s career took off in 1928 with the publication of Coming of Age in Samoa Within ten years she was the best known academic in the United States a role she enjoyed all of her life In On Creating a Usable Culture Maureen Molloy explores how Mead was influenced by and influenced the meanings of American culture and secured for herself a unique and enduring place in the American popular imagination She considers this in relation to Mead s four popular ethnographies written between the wars Coming of Age in Samoa Growing Up in New Guinea The Changing Culture of an Indian Tribe and Sex and Temperament in Three Primitive Societies and the academic middle brow and popular responses to them Molloy argues that Mead was heavily influenced by the debates concerning the forging of a distinctive American culture that began around 1911 with the publication of George Santayana s The Genteel Tradition The creation of a national culture would solve the problems of alienation and provincialism and establish a place for both native born and immigrant communities Mead drew on this vision of an integrated culture and used her primitive societies as exemplars of how cultures attained or failed to attain this ideal Her ethnographies are really about America the peoples she studied serving as the personifications of what were widely understood to be the dilemmas of American selfhood in a materialistic individualistic society Two themes subtend Molloy s analysis The first is Mead s articulation of the individual s relation to his or her culture via the trope of sex Each of her early ethnographies focuses on a character and his or her problems as expressed through sexuality This thematic ties her work closely to the popularization of psychoanalysis at the time with its understanding of sex as the key to the self The second theme involves the change in Mead s attitude toward and definition of culture from the cultural determinism in Coming of Age to culture as the enemy of the individual in Sex and Temperament This trend parallels the consolidation and objectification of popular and professional notions about culture in the 1920s and 1930s On Creating a Usable Culture will be eagerly welcomed by those with an interest in American studies and history

cultural studies and the social sciences and most especially by readers of American intellectual history the history of anthropology gender studies and studies of modernism *The American Intellectual Tradition: 1865 to the present* David A.
