Michelle Lamarche Marrese explores the development of Russian noblewomen's unusual property rights In contrast to
women in Western Europe who could not control their assets during marriage until the second half of the nineteenth century
married women in Russia enjoyed the right to alienate and manage their fortunes beginning in 1753 Marrese traces the
extension of noblewomen's right to property and places this story in the broader context of the evolution of private property
in Russia before the Great Reforms of the 1860s Historians have often dismissed women's property rights as meaningless In
the patriarchal society of Imperial Russia a married woman could neither work nor travel without her husband's permission
and divorce was all but unattainable Yet through a detailed analysis of women's property rights from the Petrine era through
the abolition of serfdom in 1861 Marrese demonstrates the significance of noblewomen's proprietary power She concludes
that Russian noblewomen were unique not only for the range of property rights available to them but also for the active
exercise of their legal prerogatives A remarkably broad source base provides a solid foundation for Marrese's conclusions
These sources comprise more than eight thousand transactions from notarial records documenting a variety of property
