Restaurant Marketing and Advertising Amy S. Jorgensen, 2003 This series of fifteen books, The Food Service Professional Guide TO Series from the editors of the Food Service Professional magazine, are the best and most comprehensive books for serious food service operators available today. These step-by-step guides on a specific management subject range from finding a great site for your new restaurant to how to train your wait staff and literally everything in between. They are easy and fast to read, easy to understand and will take the mystery out of the subject. The information is boiled down to the essence. They are filled to the brim with up-to-date and pertinent information. The books cover all the bases, providing clear explanations and helpful specific information. All titles in the series include the phone numbers and web sites of all companies discussed. What you will not find are wordy explanations, tales of how someone did it better or a scholarly lecture on the theory. Every paragraph in each of the books is comprehensive, well researched, engrossing and just plain fun to read, yet are packed with interesting ideas. You will be using your highlighter a lot. The best part, aside from the content, is they are very moderately priced. The whole series may also be purchased. The ISBN number for the series is 0910627266. You are bound to get a great new idea to try on every page if not out of every paragraph. Do not be put off by the low price; these books really do deliver the critical information and eye-opening ideas you need to succeed without the fluff so commonly found in more expensive books on the subject. Highly recommended. Atlantic Publishing is a small independent publishing company based in Ocala, Florida. Founded over twenty years ago in the company president's garage, Atlantic Publishing has grown to become a renowned resource for non-fiction books. Today over 450 titles are in print covering subjects such as small business, healthy living, management, finance, careers and real estate. Atlantic Publishing prides itself on producing award-winning, high-quality manuals that give readers up-to-date, pertinent information, real-world examples and case studies with expert advice. Every book has resources, contact information and web sites of the products or companies discussed.

Restaurant and Bar Marketing Erik Shellenberger, 2021-11-05 The Experts are lying to you. A real, raw and relevant look at the reality of Restaurant Marketing in today's noisy online world. Learn why social media marketing has lost its effectiveness over the years and how content marketing can give you a simple, much-needed edge. Master the Fishbowl vs the Ocean concept and start increasing guest counts where the NEW customers are: Google, Tripadvisor and Yelp. NOT social media. Do not listen to

the one size fits all social media people who put their own best interests ahead of your restaurant's success. Learn from my decade of corporate Restaurant Marketing experience and my knowledge gained by simply ASKING the public how they decide where to eat and drink instead of guessing. The marketing status quo of today is shockingly flawed which is costing your business money. Living a lifetime in the trenches from dishwasher to corporate marketing director and everything in between I've learned a few things about human nature and why we have to adapt and pivot instead of refusing to evolve. THIS is how to improve guest counts and run a successful bar or restaurant. Today's Restaurant Marketing Expert is running increasingly low on the Expert part. Now more than ever large corporate restaurant marketing teams rely on expensive social media campaigns and flashy looking visual presentations. All of which will be seen by an decreasing number of potential customers. These marketing departments often can't differentiate between what works for them personally and what will make your restaurant succeed. The marketing approach for a nightclub with a younger demographic is totally different for a casual restaurant or for fine dining. Yet we all still use this generic plug and play social media marketing approach used over and over in the most hilariously misused way possible. Restaurant Marketing and Marketing Strategies in general have come a long way since the internet was invented. What worked a decade ago is laughable today. What worked last year is probably pretty worthless today. If your business is in a tourist heavy environment yet your marketing approach is based in social media and not SEO Search engine optimization then I can promise you your money is being wasted. Can your customers find you from Facebook if they haven't ever heard of you? Can they see your clever Instagram posts if they have no idea you exist? Tourists and people looking to make a right here right now purchase primarily use 3 online tools: Google, Tripadvisor and Yelp. Stop throwing money away on insane Restaurant Marketing Campaigns geared toward an audience you don't even have. In this book I cut out all of the noise and BS of traditional Restaurant Marketing approaches and narrow it down to what works. To what we can measure and prove. To what actually brings in a positive ROI and helps improve your business and grow your guest counts. Take it from a former employee and Corporate Marketing Director who was forced to implement ridiculous Restaurant Marketing campaigns with zero accountability and zero proven success rates. I'm well versed in what doesn't work and I've seen hundreds of thousands of dollars wasted in the name of Restaurant Promotions over the years. Don't make these same mistakes and keep your money where it belongs in your bank account. This book is an extremely easy read and digest. I don't try to sound pseudo educated by deliberately talking over someone's head like some stuffy board room sales pitch. I'm only concerned about one thing: to bring more customers into your restaurant or bar. I cut out the nonsense and overthought ideas and make implementing your own Restaurant Marketing Strategy so easy that anyone can do it. No fancy degree or college intern needed.
