Critical Visual Methods to Advance Racial Justice in Educational Research Angela M. Wiseman, Marva Cappello, Jennifer D. Turner, 2025-09-23

Critical Visual Methods to Advance Racial Justice in Educational Research advances critical research methodologies for analyzing visual and multimodal data with particular attention to racial justice and minoritized communities. It presents innovative theoretical frameworks and analytical approaches for examining how visual representations impact, perpetuate, and potentially transform systemic inequities in educational research. Organized into three sections, this book explores analytic frameworks, methods for critical visual analysis, and visual praxis in schools and communities. Contributors weave together transformative theories while demonstrating innovative approaches to visual analysis, including photovoice, collage, slow looking, and radical curation that center participant perspectives. The book showcases rigorous approaches to analyzing visual data while maintaining methodological depth. Key findings illustrate how visual methodologies can reveal hidden power structures, document lived experiences, and generate new knowledge about how minoritized communities engage with and create visual meaning. The work advances understanding of perspectives across the lifespan, from children to youth to adults, through visual and multimodal research methods. This book is designed for emerging and established educational scholars interested in critical visual and multimodal methodologies and serves as an ideal text for undergraduate and graduate research courses. It offers valuable insights for researchers studying representation, identity, and equity while advancing innovative approaches for analyzing visual and multimodal data in educational research.

Sensate Haven Abyss Aisha Daniel, 2024-02-03

Sensate Haven is profoundly influenced by augmented reality and artificial intelligence and it symbolizes and acts as an excellent example of technological progress. Nevertheless, there's a shadow, an unintended result of unbridled expansion somewhere amid the glistening skyline. A digital turbulent strikes the city, revealing the murky side of networked progress. The Bodhisattvas discover a malevolent force that seeks revenge with a technological weapon of unimaginable power and threatens to annihilate their worlds. An unfathomable power threatens to destroy their worlds with a diabolical force that demands retribution. The menacing sound of hopelessness reverberates through Sensate Haven's broken urban landscapes, pressing the Bodhisattvas to discover the evil force's mysteries and avert the ultimate convergence, a pit of unending fear. The haunting chorus of despair echoes through misty woods and shattered cityscapes, challenging the Bodhisattvas to unravel the malevolent force's secrets and prevent the ultimate abyss of perpetual dread. The previously praised innovations are now upending the delicate balance between creation and chaos, from holographic illusions to virtual horrors. This is a compelling story about using code to play god. Will the shadows cast by its own advancements kill Sensate Haven, or can the hesitant hero face the nightmare and find a way to restore balance to a planet on the verge of technological chaos? Travel into the

digital shadows a future where creativity as well as ethics collide and where unintended consequences of technology disruption wreak havoc
